Independent Auditors' Report

Board of Finance
Board of Selectmen
Town of Hampton, Connecticut

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hampton, Connecticut, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Hampton, Connecticut's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hampton, Connecticut, as of June 30, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Single Audit Act (C.G.S. Sections 4-230 to 236). Our responsibilities under those standards and the State Single Audit Act are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Hampton, Connecticut and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Hampton, Connecticut's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards* and the State Single Audit Act will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards* and the State Single Audit Act we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Hampton, Connecticut's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the pension and OPEB schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Hampton, Connecticut's basic financial statements. The accompanying combining and individual fund financial statements and other supplemental schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and other supplemental schedules as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 26, 2025, on our consideration of the Town of Hampton, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Hampton, Connecticut's internal control over financial reporting and compliance.

Town of Hampton, Connecticut
Management's Discussion and Analysis
June 30, 2024

Our discussion and analysis of the Town of Hampton, Connecticut's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2024. Please read this analysis in conjunction with the basic financial statements, notes to the basic financial statements, and required supplementary information of the Town. This management discussion and analysis is being presented for the current fiscal year with a focus on the comparative analysis of the information on the governmental activities of the Town as found in the government-wide financial statements.

Financial Highlights - Government-Wide Financial Statements

- The Town's total assets exceeded its total liabilities by \$14,245,901 (net position) as of the end of the current fiscal year. This compares to the prior fiscal year when total assets exceeded total liabilities by \$12,917,294. This represents a favorable increase of \$1,328,607 or approximately 10.29%.
- The Town's net investment in capital assets net position balance is used to account for the total capital assets of the Town reduced by the total accumulated depreciation on those assets, reduced by the total outstanding debt incurred to purchase those assets. The total net investment in capital assets net position balance of the Town was \$8,075,186 as of the end of the current fiscal year. This compares to the prior fiscal year balance of \$7,380,211. This represents an increase of approximately 9.42% which is the result of an increase in the related debt of (\$5,673), current year depreciation in the amount of (\$561,315) and current year capital asset additions in the amount of \$1,261,963. These current year additions included but were not limited to a school building intrusion system in the amount of \$29,609, a new pickup truck for the public works department in the amount of \$87,270, pre-payments towards the purchase of a new fire truck in the amount of \$753,000, paving and curbing costs at town hall in the amount of \$68,341, paving costs at the community center in the amount of \$37,400, improvements to the tennis courts at the town hall in the amount of \$19,500 as well as current year paving and related costs in the amount of \$226,167 which are classified as infrastructure and improvement assets.
- The Town's restricted net position is used to account for funds received with constraints imposed by grantors and contributors. This net position *cannot* be used to finance the day-to-day activities and operations of the Town. The total restricted net position balance of the Town was \$2,981,943 as of the end of the current fiscal year. This compares to the prior fiscal year balance of \$2,983,706. This represents a decrease of approximately .06%. This decrease is made up of a number of individual increases and decreases in the components of the restricted net position balance which can be seen on the net position comparison section on page 5.
- The Town's unrestricted net position balance is the component of net position which is used to finance the day-to-day activities and operations without constraints imposed by creditors, grantors, contributors, or other rules and regulations as imposed by other governments or enabling legislation. The total unrestricted net position balance of the Town was \$3,188,772 as of the end of the current fiscal year. This compares to the prior fiscal year balance of \$2,553,377. This represents a favorable increase of approximately 24.89%. This relates mostly to the current fiscal year surpluses and deficits within the town general and other funds as described in the fund financial statements as adjusted for inclusion in the government-wide financial statements.
- The Town's total revenues for its governmental activities were \$7,715,584 for the current fiscal. This revenue balance includes \$4,347,495 in property tax revenue, \$2,713,606 in operating and capital grants and \$116,669 in charges for services. The Town recognized \$482,039 of revenue in relation to the American Rescue Plan Act to offset current fiscal year expenses. This revenue had been recorded as unearned revenue in the government-wide financial statements. The current fiscal year revenues compare to prior fiscal year revenues of \$6,536,937, an increase of approximately 18.03%.
- The cost of the Town's governmental activities was \$6,386,977 for the current fiscal year. The amount of these costs ultimately financed by general revenues of the Town, however, was only \$3,556,702 due to a portion of these costs being paid for by individuals receiving certain benefits through charges for services in the amount of \$116,669, and through operating and capital grants received in the amount of \$2,713,606. This amounts to approximately 55.69% of the cost of these governmental activities actually being financed by general revenues of the Town. The current fiscal year expenditures compare to prior fiscal year expenses of \$6,660,332, a decrease of approximately 4.10%. The individual breakdown of how these charges for services and operating and capital grants were received by department is shown in the statement of activities on page 11.
- The Board of Education and the related programs of the Town received approximately \$244,258 in grant dollars from a number of sources including state grant funds and federal pass-through grant funds to assist in a number of educational programs and projects from the school readiness programs to improving basic programs. This compares to \$242,600 being received during the prior fiscal year. General state education cost sharing funds have not been included. These revenue amounts represent the amounts recorded by the Town in the fund financial statements. The amounts shown in the government-wide financial statements have been adjusted for unearned amounts which are recorded as unearned revenues on the statement of net position.

Town of Hampton, Connecticut
Management's Discussion and Analysis
June 30, 2024

Using this Annual Report

This annual report consists of a series of financial statements. The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities which are shown on pages 10 and 11 and which provide information about the activities of the Town as a whole and present a longer-view of the Town's finances. The fund financial statements consist of the Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances which are shown on pages 12 and 14 and tell how the services of the Town were financed in the short-term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide financial statements by providing information about the Town's most significant funds. The fiduciary fund financial statements consist of a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position which are shown on page 16. Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore cannot be used to support the programs of the Town. Fiduciary funds can be classified as pension or other employee benefit trust funds, investment trust funds, private purpose trust funds and custodial funds. The fiduciary activities of the Town are classified as custodial funds as they relate to the student activity accounts located at the Board of Education.

Reporting the Town as a Whole

Our analysis of the Town as a whole begins on page 10 with the statement of net position. One of the most important questions asked about the Town's finances is, "Is the Town as a whole better off or worse off as a result of the current fiscal years activities?" The statement of net position and the statement of activities report information about the Town as a whole and about its activities in a way that helps answer this question. The statement of net position includes all of the assets and liabilities of the Town using the accrual basis of accounting. This basis of accounting is similar to the accounting policies and procedure utilized by most private-sector (for profit) companies. All of the current fiscal year revenues and expenses are taken into account regardless of when cash is received or paid in the statement of activities.

These two statements report the Town's net position and the changes in this net position. You can think of this net position as one way to measure the financial health and financial position of the Town. The net position balance is made up of the difference between the assets and liabilities of the Town. Over time, increases and decreases in the Town's net position is one indicator of whether its financial health is improving or deteriorating. However, you also need to consider other non-financial factors which affect the overall financial health of the Town such as changes in the property tax base, the conditions of the infrastructure of the Town and the general economy present at the time. These two statements are divided into three different kinds of activities on the reporting level. These categories are governmental, business-type and discretely presented component units. The Town's activities are classified solely as governmental activities and are characterized as follows:

- Governmental activities - All of the Town's basic services are reported here, including general government, public safety, public works, sanitation and waste services, health and welfare services, education, and other general and program and unclassified activities. Property tax revenues, charges for services, state and federal operating and capital grants and other funding, and other miscellaneous revenues fund most of these activities in whole or in part.

Reporting the Town's Most Significant Funds

Our analysis of the Town's major funds begins on page 12 with the balance sheet. The fund financial statements provide detailed information about the most significant funds of the Town but not a combined picture of the Town as a whole. Some of these funds are required to be established by State law or by bond covenants. In addition, the Board of Finance of the Town has the authority to establish other funds to help control and manage money for particular purposes (such as the school lunch fund and town clerk funds) or to show that it is meeting legal responsibilities for using certain taxes, grants, or other money (such as the grant revenue received and expended for school grants). The Town uses governmental funds which are characterized as follows:

- Governmental funds - All of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end that are available for spending. These funds are reported using a current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting measures cash and all other financial assets that can readily be converted into cash. The governmental fund financial statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs and activities. The relationship between governmental activities and governmental funds is presented in a reconciliation at the bottom of the fund financials.

Town of Hampton, Connecticut
Management's Discussion and Analysis
June 30, 2024

The Town as a Trustee

Fiduciary fund reporting focuses on net position and changes in net position. Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore cannot be used to support the programs of the Town. Fiduciary funds can be classified as pension or other employee benefit trust funds, investment trust funds, private purpose trust funds and custodial funds. The fiduciary activities of the Town are classified as custodial funds as they relate to the student activity accounts located at the Board of Education. Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

The Town as a Whole - Assets, Liabilities and Net Position

The information provided below represents government-wide information for the governmental activities of the Town for the current fiscal year as compared to the prior fiscal year. The current ratio compares the current assets of the Town to its current liabilities and gives an indication of the Town's ability to pay current obligations. As of the end of the current fiscal year the current ratio of the Town was 8.45 to 1 compared to the end of the prior fiscal year when the current ratio was 3.54 to 1. This current and prior fiscal year ratio is considered very strong. Another indication of the Town's ability to meet its current obligations with current assets is called its working capital. This is calculated by subtracting the current liabilities from the current assets. As of the end of the current fiscal year the Town's positive working capital balance was \$2,797,004. This compares to the prior fiscal year positive balance of \$1,904,507. This represents a favorable increase of approximately 46.86%.

	Governmental activities		Percentage of total

The Town as a Whole - Revenues, Expenses and Changes in Net Position

The information provided below represents government-wide information for the governmental activities of the Town for the current fiscal year. The revenues and expenses shown below are recorded on the accrual basis of accounting. Program revenues received by the Town specifically relating to or generated by individual departments are applied to the departmental expenditures to determine the amount and percentage of total Town expenditures actually financed by the general revenues of the Town. This amount and percentage is shown at the bottom of this schedule and can be used to give the reader an indication of how the Town's activities were financed during the current fiscal year. The expenses shown below indicates the general make-up of the Town's spending by department and as a percentage of total spending.

	Governmental activities		Percentage of total	
	2024	2023	2024	2023

Management's Discussion and Analysis
June 30, 2024

Capital Assets

Capital assets of the Town may include land, land improvements, buildings, building improvements, vehicles, equipment, right to use assets, subscription assets and infrastructure assets used in the operations of the Town and that have an initial useful life extending beyond one year. Infrastructure assets are long-lived capital assets that are normally stationary in nature and can normally be preserved for a significantly greater number of years than most capital assets. The types of infrastructure assets recorded by the Town include but are not limited to improved town roads, unimproved town roads, and bridges. The infrastructure assets shown below include current and prior fiscal year expenses recorded at the actual historical cost or estimated historical cost when actual costs were not available. More detailed information on the capital assets of the Town can be found in note 1J on page 22 and note 5 on page 31.

	Governmental Activities		Percentage of total	
	2024	2023	2024	2023
Land and improvements	\$ 936,485	\$ 936,485	5.45%	5.87%
Right to use assets	40,457	40,478	0.24%	0.25%
Subscription assets	35,239	35,239	0.21%	0.22%
Buildings and improvements	7,955,545	7,918,661	46.31%	49.64%
Vehicles	2,553,585	1,713,315	14.86%	10.75%
Equipment	834,132	816,904	4.86%	5.12%
Infrastructure and improvements	4,822,225	4,490,317	28.07%	28.15%
Total historical cost	<u>17,177,668</u>	<u>15,951,399</u>	<u>100.00%</u>	<u>100.00%</u>
Less accumulated depreciation	<u>-9,073,292</u>	<u>-8,547,671</u>		
Total capital assets (net)	<u>\$ 8,104,376</u>	<u>\$ 7,403,728</u>		

Debt Administration

The types of long-term debt normally incurred by the town include bonds, notes, right to use leases payable and subscription liabilities and the types of other debt related liabilities of the town include accrued compensated balances (earned vacation and longevity payment balances) in accordance with the established personnel policies of the Town and Board of Education and other post employment benefit liabilities in accordance with generally accepted accounting principles. All long-term debt is incurred through the approval of the inhabitants of the Town in accordance with applicable state statutes. The applicable state debt limitations as set forth in the Connecticut General Statutes, Section 7-374 (b) and the towns outstanding balances in comparison to these limitations can be found in the Schedule of Debt Limitations, Sub-Schedule C on page 60. The comparison of the outstanding debt shown below indicates that the general make-up of the Town's different types of debt as a percentage of total debt was consistent for the current fiscal year in comparison to the prior fiscal year. The portion due within one year and due after one year changed based on variations in the applicable payment schedules. More detailed information on Town debt can be found in note 7 starting on page 32.

	Governmental Activities		Percentage of total	
	2024	2023	2024	2023
Outstanding payables:				
Portion due within one year	\$ 13,991	\$ 15,094	15.31%	16.57%
Portion due after one year	15,199	8,423	16.63%	9.25%
Other liabilities:				
Accrued compensated balances - town	11,961	9,323	13.09%	10.23%
Accrued compensated balances - school	3,000	3,000	3.28%	3.29%
Other post employment benefits	<u>47,254</u>	<u>55,262</u>	<u>51.69%</u>	<u>60.66%</u>
Total debt	<u>\$ 91,405</u>	<u>\$ 91,102</u>	<u>100.00%</u>	<u>100.00%</u>

Town of Hampton, Connecticut
Management's Discussion and Analysis
June 30, 2024

The previous sections of this management discussion and analysis have been presented for the current fiscal year with a focus on the comparative analysis of the information on the governmental activities of the Town as found in the government-wide financial statements. Comparative financial information has not been included for the fund financial statements of the Town. The following financial highlights, however, do relate to the balances and results of the activities of the Town's individual funds as found in its fund financial statements. Detailed current year information on the Town's individual funds can be found on the Balance Sheet on page 12 and the Statement of Revenues, Expenditures and Changes in fund balances on page 14.

Financial Highlights - Fund Financial Statements

- The total assets of the Town's governmental funds exceeded the total liabilities by \$4,860,361 which represents the fund balance of these funds as of the end of the current fiscal year. This compares to the prior fiscal year when total assets exceeded total liabilities by \$5,144,966, an unfavorable decrease of (\$284,605) or approximately 5.53%. This unfavorable decrease is due to the negative results of the general fund of (\$95,144), the positive results of the small cities program fund of \$6,722, the positive results of the capital non-recurring fund of \$267,460 and the negative results of the non-major governmental funds of (\$463,643). These increases and decreases can be seen by reviewing Statement D on page 14 and the corresponding combining schedules and sub-schedules as shown in the table of contents.
- The total revenues of the Town's governmental funds were \$6,279,529, not including on behalf education revenues, for the current fiscal year in comparison to \$5,604,353 during the prior fiscal year, an increase of approximately 12.05%. This revenue balance includes property tax revenues of \$3,872,874 and intergovernmental revenues of \$1,853,045, not including on behalf education revenues. The amount of property tax revenues recognized by the Town increased by \$358,190 from the prior fiscal year due in part to a slightly higher than expected collection rate even though the outstanding taxes receivable balance increased from \$822,376 during the prior fiscal year to \$1,129,869 in the current fiscal year.
- The total expenditures of the Town's governmental funds were \$6,587,582, not including on behalf education expenditures, for the current fiscal year in comparison to \$5,910,449 during the prior fiscal year, an increase of approximately 11.46%. This expenditure balance includes education expenditures of \$3,865,736 for elementary and secondary education programs and current fiscal year capital expenditures of \$1,036,427 which included \$627,832 of capital expenditures related to town and school grants, \$408,595 of capital expenditures related to the capital non-recurring fund, \$10,680 of capital expenditures included in the education general fund line item and \$191,408 of current year paving and related costs included in the public works line item within the general fund.
- The net change in fund balance (excess or deficiency of revenues over-under expenditures) for the Town's general fund was a negative (\$95,144) for the current fiscal year in comparison to a negative (\$247,186) for the prior fiscal year. This represents a favorable increase relating in part to the following selected current and prior fiscal year budgetary highlights. See the budget to actual required supplementary information shown on pages 45 through 47 for more detailed information on actual revenues and expenditures in comparison to the budgeted amounts.
- The actual revenues received in the Town's general fund were \$43,996 higher than the budget revenues for the current fiscal year which is a favorable variance. This "over collection" of budgeted revenues relates to a number of budgeted revenue categories. Property tax revenue was (\$168,782) under the budgeted amount while intergovernmental education revenues were \$74,060 over the budgeted amount. Other intergovernmental revenues were \$55,894 over the budgeted amount, interest income was \$52,233 over the budgeted amount and miscellaneous revenues were \$14,817 over the budgeted amount. This compares to an under collection of revenues during the prior fiscal year of (\$275,075) which was an unfavorable variance. The actual program expenditures in the Town's general fund were \$151,449 lower than the budgeted expenditures for the current fiscal year which is a favorable variance in comparison to \$314,871 lower during the prior fiscal year which was also a favorable variance. This under expenditure was due in large part to the paving account which was under-expended by \$77,816, the road maintenance account which was under-expended by \$27,236 and the public works fuel account which was under-expended by \$12,297. Transfers from the general fund to other town funds included transfers to the capital non-recurring fund of \$422,836 to fund current fiscal year expenditures and the recreation activities fund of \$4,900 for current operating costs and from the school general fund of \$23,520 to the school lunch program to fund the current fiscal year operations of the program.
- In the current fiscal year, the Town approved the use of \$454,433 of its unassigned general fund balance. This included \$290,000 for the capital non-recurring fund approved at a special town meeting on September 21, 2023 for town hall campus and community center improvements, up to \$10,000 for little river park improvements for which \$4,433 was used during the current fiscal year and \$160,000 to offset an anticipated tax revenue shortfall in relation to necessary tax billing adjustments. This is in effect the same as budgeting for a loss due to the fact that prior year accumulated balances cannot be shown as current year revenues. The town approved the use of \$285,477 of its unassigned general fund balance during the prior fiscal year.

Town of Hampton, Connecticut
Management's Discussion and Analysis
June 30, 2024

Economic Factors and Next Year's Budgets and Rates

A summary of key economic factors affecting the Town are as follows:

- The Town receives intergovernmental revenues from the State of Connecticut. Connecticut's economy moves in the same general cycle as the national economy, which may affect the amount of intergovernmental revenues the Town will receive in the upcoming 2025 fiscal year and thereafter.
- The State imposes a cap on municipal spending to limit the budgeted expenditures to 2.50% above the previous year, or the rate of inflation, whichever is greater. The State determined rate of inflation determination in relation to this municipal spending cap for the upcoming 2025 fiscal year is 6.27%. The cap includes certain exemptions relating to increases in debt service, special education costs, claims and judgements and costs incurred related to major disaster or emergency declarations. Municipalities that increase their adopted budget expenditures over the previous fiscal year by an amount that exceeds the cap may receive a reduced municipal revenue sharing grant.
- The State has established a minimum budget requirement ("MBR") for budgeted education expenditures. The MBR prohibits towns from budgeting less for education than it did in the previous year unless, and within limits, the Town can demonstrate a decrease in school enrollment or savings through increased efficiencies. Any increases or decreases that the Town receives in its Education Cost Sharing grant will result in a corresponding increase or decrease in the Town's MBR.
- The potential impact of unforeseen circumstances on the local economy, businesses and Town revenues is being continually monitored. For the current fiscal year, there were no specifically related and identifiable negative or positive impacts on income from investments, building permits, recording fees and conveyance taxes. The Town did not see any specifically related and identifiable impact on tax collections for the current fiscal year and there is no indication that there will be an impact on the upcoming 2025 fiscal year collections.

All of these factors were considered in preparing the Town's 2025 fiscal year budget. Both the general government and elementary school budget were adopted at a town referendum on June 27, 2024. The general government budget totaled \$1,889,541, an increase of \$39,281 or approximately 2.12% from the 2024 fiscal year budget. The elementary school budget totaled \$2,179,600, an increase of \$39,312 or approximately 1.84% from the 2024 fiscal year budget.

Contacting the Town's Financial Management

This financial report is designed to provide a general overview of the Town's finances, comply with finance-related laws and regulations, and demonstrate the Town's commitment to public accountability. If you have questions about this report or need additional financial information, contact the Town Treasurers office or the office of the First Selectman at 164 Main Street, Hampton, Connecticut 06247.

Town of Hampton, Connecticut
Reconciliation of Statement C to Statement A
for all Governmental Funds and Activities
June 30, 2024

Fund balances of governmental funds as shown on Statement C		\$ 4,860,361
Amounts reported for governmental activities in the government-wide financial statements (Statement A) differ from the amounts reported in the fund financial statements (Statement C):		
1 Capital assets used in governmental activities are not financial resources and are not reported on Statement C however they are reported on Statement A and must be added in:		
Cost	17,177,668	
Less accumulated depreciation	-9,073,292	8,104,376
2 The majority of the property tax receivable long-term asset is not available to pay for current period expenditures and therefore it is reported as deferred inflows of resources on Statement C however this amount is considered earned when billed and in turn recorded as revenue on Statement A and therefore must be added back in:		1,117,287
3 Certain grant revenues received by the Town are recorded as revenue when the amounts are available and measurable in the fund financial statements on the modified accrual basis of accounting. However, the government-wide financial statements record revenues when they have been earned on the accrual basis of accounting and therefore these revenue amounts are deferred on Statement A and therefore must be subtracted out:		-95,740
4 Interfund receivable and payable balances between governmental funds are reported on Statement C but eliminated on the Statement A:		
Interfund receivables	146,354	
Interfund payables	-146,354	-
5 Long-term liabilities, are not due and payable in the current period and therefore are not reported on Statement C however they are reported on Statement A and must therefore be subtracted out:		
Right to use leases payable	-22,690	
Subscription liability payable	-6,500	
Accrued compensated balances	-14,961	
Other post-employment benefits liability	-47,254	-91,405
6 Delinquent interest and lien fees are recorded as revenue when received and when they become available and measurable however these amounts are recorded on Statement A due to the fact that the amounts are viewed to have been earned and therefore they must be added back in. These interest and fees apply to active tax receivable balances and do not include suspense related balances.		351,022
Net position of governmental activities as shown on Statement A		\$ 14,245,901

See the accompanying notes to the financial statements.

Town of Hampton, Connecticut
Reconciliation of Statement D to Statement B
for all Governmental Funds and Activities
For the year ended June 30, 2024

Net changes in governmental fund balances as shown on Statement D		\$ -284,605
Amounts reported for governmental activities in the government-wide financial statements (Statement B) differ from the amounts reported in the fund financial statements (Statement D):		
1 Capital asset purchases are recorded as expenditures in Statement D and are capitalized and shown as depreciation expense over their estimated useful lives in Statement B:		
Current year capital asset purchases to be capitalized	1,261,963	
Current year depreciation expense on current and previous capital assets	-561,315	700,648
2 Property tax revenues are recognized on Statement D as described in note 1F of the notes to the financial statements however property tax revenues are recorded in the full amount of the annual levy in Statement B and therefore the current year adjustment described in note 1F must be added back in or subtracted back out:		302,372
3 The basis of presentation and revenue recognition is different from the government-wide financial statements shown on Statement B and the fund financial statements shown on Statement D. This difference in revenue recognition policies results in certain revenue amounts being recognized in Statement D and being recorded as unearned in Statement B:		
Prior year unearned revenue amounts to be recognized	533,986	
Current year revenue amounts to be recorded as unearned	-95,740	438,246
4 Interfund transfers between governmental funds are reported on Statement D but must be eliminated on Statement B:		
Transfers in	451,256	
Transfers out	-451,256	-
5 Payments on and changes in long-term liabilities are recorded as current year activities on Statement D however they are shown as increases or decreases in liability accounts in the government-wide financial statements and therefore must be adjusted accordingly:		
Right to use lease payable proceeds	-23,448	
Right to use leases payable principal repayment	10,323	
Subscription liability principal repayment	7,452	
Accrued compensated balances increase	-2,638	
Other post-employment benefit liability decrease	8,008	-303
6 Estimated accounts receivable for delinquent interest and lien fees are recorded as revenue when received on Statement D and as a reduction in a recorded receivable on Statement B and therefore must not be shown as current activity:		
Prior year recorded delinquent interest and lien receivable balance	-178,773	
Current year recorded delinquent interest and lien receivable balance	351,022	172,249
Change in net position of governmental activities as shown on Statement B		\$ 1,328,607

See the accompanying notes to the financial statements.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The Town of Hampton, Connecticut was incorporated in 1786 under the General Statutes of the State of Connecticut and is located in Windham County. The Town is a municipal corporation governed by an elected Board of Selectmen and Board of Finance.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for governmental accounting and financial reporting. The basic financial statements of the Town consist of government-wide financial statements and fund financial statements. The basis of presentation, measurement focus, and basis of accounting differ for these two types of financial statements and are described separately in Section B and C below. The other following sections represent a summary of the significant accounting policies as applied by the Town.

A. Reporting Entity

The financial reporting entity consists of the primary government and its component units, organizations for which the primary government is financially accountable or for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are, for financial reporting purposes, part of the primary government. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board. The determination of whether an entity should be included as a component unit of the primary government includes not only the application of the aforementioned criteria but a consideration as to whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens.

The Town has specifically evaluated its relationship with the Hampton Fire Company (the Company), a legally separate entity, to determine if the entity should be considered a component unit of the Town. The Town does not appoint a voting majority of the governing board of the Company and therefore it is not financially accountable for the Company in relation to meeting that criteria for inclusion as a component unit. The Town would still be considered financially accountable for the Company if it were determined that the Company is fiscally dependent on the Town and there is a potential for the Company to provide specific financial benefits to, or impose specific financial burdens on, the Town. The Company would be considered fiscally independent if it has the authority to (1) determine its budget without another government having the authority to approve and modify that budget and (2) levy taxes or set rates or charges without approval by another government and (3) issue bonded debt without approval by another government. The Town does not have the authority to approve or modify the budget of the Company but rather simply has the authority to approve or modify the amount of the requested appropriation from the Town to the Company. As a result, the Company does not meet this fiscal dependency criteria for inclusion as a component unit. The final determination as to whether the Company should be considered a component unit of the Town relates to management's professional judgement as to whether the exclusion of the financial information relating to the Company would result in the financial statements of the Town being misleading. The financial statements of the Town currently include the annual appropriation made to the Company in the amount of \$80,750 and the costs, capitalized assets and debt related to the purchase of major fire fighting equipment when present. In evaluating these items, the management of the Town has determined that the exclusion of the financial information of the Company would not result in the financial statements of the Town being misleading and as a result the Company would not meet this criteria for being included as a component unit and as such is not considered to be a component unit of the Town.

The Town has also specifically evaluated its relationship with the Fletcher Memorial Library (the Library), a legally separate entity, to determine if the entity should be considered a component unit of the Town. The Town does not appoint a voting majority of the governing board of the Library and therefore it is not financially accountable for the Library in relation to meeting that criteria for inclusion as a component unit. The Town would still be considered financially accountable for the Library if it were determined that the Library is fiscally dependent on the Town and there is a potential for the Library to provide specific financial benefits to, or impose specific financial burdens on, the Town. The Library would be considered fiscally independent if it has the authority to (1) determine its budget without another government having the authority to approve and modify that budget and (2) levy taxes or set rates or charges without approval by another government and (3) issue bonded debt without approval by another

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

government. The Town does not have the authority to approve or modify the budget of the Library but rather simply has the authority to approve or modify the amount of the requested appropriation from the Town to the Library. As a result, the Library does not meet this fiscal dependency criteria for inclusion as a component unit. The final determination as to whether the Library should be considered a component unit of the Town relates to management's professional judgement as to whether the exclusion of the financial information relating to the Library would result in the financial statements of the Town being misleading. The financial statements of the Town currently include the annual appropriation made to the Library in the amount of \$37,565. In evaluating these items, the management of the Town has determined that the exclusion of the financial information of the Library would not result in the financial statements of the Town being misleading and as a result the Library would not meet this criteria for being included as a component unit and as such is not considered to be a component unit of the Town.

B. Government-Wide Financial Statements

1. Basis of Presentation

The government-wide financial statements consist of a statement of net position and a statement of activities. These statements report information about the Town as a whole without displaying individual funds or fund types. These statements distinguish between the primary government as well as the governmental and business-type activities of the Town. These statements do not include information about the fiduciary activities and funds of the Town or component units which are fiduciary in nature. Fiduciary activities and funds report assets which are held by the Town in a trustee or custodial capacity and which cannot be used to support the activities and programs of the Town.

The statement of net position presents the financial position of the governmental and business-type activities (when present) of the primary government of the Town and any discretely presented component units at the end of the fiscal year. This statement reports the assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position of the Town. The assets and liabilities are presented in the order of their relative liquidity. The liquidity of assets is determined by how readily they are expected to be converted into cash and whether there are restrictions in place limiting their use by the Town. The liquidity of liabilities is determined by their maturity or by when cash will be used to liquidate them. The net position balance of the Town consists of the net investment in capital assets (total capital assets net of accumulated depreciation and reduced by the total outstanding debt incurred to purchase the assets), restricted and unrestricted amounts. Restricted net position is present when constraints are imposed externally by creditors, grantors, contributors, other governments, or by law through constitutional provisions or enabling legislation. Unrestricted net position consists of all net position balances not meeting the definition of net investment in capital assets or restricted. Internal balances between individual funds within the governmental activities are eliminated in this statement to minimize the "grossing-up" of assets and liabilities. These internal balances are also known as inter-fund receivables and payables and are shown in the fund financial statements as due to and due from other funds. Any residual amounts due between the governmental and business-type activities (when present) of the Town would be shown as an internal balance on the statement of net position which would cancel out in the total column for the primary government. Any residual amounts due between the governmental and fiduciary activities of the Town would be shown as an internal balance on the statement of net position.

The statement of activities presents the operations of the governmental and business-type activities (when present) of the primary government of the Town and any discretely presented component units for the fiscal year. The operations of the Town are shown in a format which reports the net (expense) revenue of the individual functions of the Town. The purpose of this net (expense) revenue format is to report the relative financial burden of each of the Town's functions on the taxpayers. Program revenue is applied to each function based on which function generated the specific charges for services and for which functions the operating and capital grants have been received. All taxes are shown as general revenues regardless of whether they were levied for a specific purpose or function. The categories of individual functions correspond to the different departments and operations of the Town. Indirect expenses which benefit the Town as a whole are not required to be allocated among the other functions of the Town and therefore they are not allocated. Depreciation expense is allocated to the specific functions (sometimes referred to as departments) of the Town based on which function purchased or benefits from the assets. Depreciation on assets shared between two or more functions is allocated based on the percentage purchased by each function. If the benefit received from these assets shifts from the function making the purchase to another function in a material amount, the depreciation amount being charged will be shifted accordingly. Depreciation on capital assets which benefit all of the functions of the Town, such as infrastructure assets, is shown as a separate line item. Internal activity between individual funds within the governmental and business-type activities are eliminated in this statement. This internal activity is also known as transfers in and out and is shown in the fund financial statements as such. The above information relating to the government-wide financial statements basis of presentation reference both governmental and business-type activities. The Town currently does not have any business-type activities.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

2. Measurement Focus and Basis of Accounting

The statement of net position and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting. The accrual basis of accounting would be used for both governmental and business-type activities of the primary government of the Town and any discretely presented component units. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. In other words, revenues and the related assets are recognized when they are earned and expenses and the related liabilities are recognized when they are incurred. The Town does not have an established policy relating to the use of restricted and unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Absent of an established policy which addresses this situation, accounting guidance states that it should consider that restricted amounts would be reduced first and then unrestricted amounts.

C. Fund Financial Statements

1. Basis of Presentation

The fund financial statements of the Town consist of a balance sheet with a reconciliation to the government-wide statement of net position, a statement of revenues, expenditures, and changes in fund balances with a reconciliation to the government-wide statement of activities and a statement of fiduciary net position and a statement of changes in fiduciary net position. These fund financial statements are designed to report additional and more detailed information about the primary government. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts which records cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with any special regulations, restrictions, or limitations which may exist. The types of funds shown for the Town are governmental funds, proprietary funds (when present) and fiduciary funds. The focus of these fund financial statements are on major funds as defined by GASB Statement No. 34. All major funds are reported in a separate column with all non-major funds being aggregated and reported in a single column.

Governmental fund reporting focuses primarily on the sources, uses, and balances of the current financial resources of the Town. The governmental funds used by the Town include the general fund and other non-major governmental fund types such as special revenue funds, capital project funds and permanent funds. The general use and purpose of these individual governmental fund types are as follows. The individual names of each fund within each non-major governmental fund type can be found in the accompanying combining schedules and the purpose of the fund is generally self explanatory within each title.

- a. General fund - The general fund is the general operating fund of the Town and accounts for all revenues and expenditures of the Town with the exception of those required to be accounted for in another fund. All general tax revenues and other receipts that (a) are not allocated by law, contractual agreement, governing body motion or town meeting to other funds or (b) that have not been restricted, committed, or assigned to other funds are accounted for in the general fund.
- b. Special revenue funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The specific restricted or committed revenues may be initially received in another fund and subsequently distributed to a special revenue fund, however, those amounts should not be recognized as revenue in the fund initially receiving them but rather be shown as revenue in the special revenue fund in which they will be expended for the specified purpose. The restricted or committed proceeds of the specific revenue sources should be expected to continue to make up a substantial portion of the resources flowing into the fund. Other financial resources may also be reported within a special revenue fund as long as those resources are restricted, committed or assigned to the specified purpose of the fund.
- c. Capital project funds - Capital project funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, such as the acquisition or construction of capital facilities and other capital assets or for the accumulation of funds for these purposes.
- d. Permanent funds - Permanent funds are used to account for and report resources that are restricted as only earnings, and not principal, may be used for purposes that support the Town's programs and in effect the benefit of the Town or its citizens.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Fiduciary fund reporting focuses on net position and changes in net position. Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and cannot be used to support the programs of the Town. Fiduciary funds can be classified as pension or other employee benefit trust funds, investment trust funds, private purpose trust funds and custodial funds. The fiduciary activities of the Town are custodial funds as they relate to the student activity accounts located at the Board of Education.

- e. Custodial funds - Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

The balance sheet is used to report information about the current financial resources (assets, deferred outflows of resources, liabilities, deferred inflows of resources and fund balances) of each major governmental fund and for all non-major governmental funds in the aggregate. The fund balance amounts within the governmental funds are segregated between nonspendable, restricted, committed, assigned and unassigned amounts. These balances are shown on the face of the balance sheet in the aggregate but are broken out into the required detail in note 1R on pages 25 and 26. An accompanying schedule is also required to be completed to reconcile the total governmental fund balance to the total net position balance of the governmental activities of the Town as shown on the government-wide statement of net position.

The statement of revenues, expenditures, and changes in fund balances is used to report information about the inflows, outflows, and balances of current financial resources of each major governmental fund and all non-major funds in the aggregate. Revenues are classified by major revenue sources while expenditures are classified by categories of individual functions corresponding to the different departments and operations of the Town. The proceeds from the issuance of long-term debt and operating transfers between individual funds are shown as other financing sources and uses. An accompanying schedule is also required to be completed to reconcile the total change in governmental fund balances to the total change in net position of the governmental activities of the Town as shown on the government-wide statement of activities.

Budgetary comparison information is required supplementary information which is presented for the general fund and each major special revenue or capital project fund that has a legally adopted annual budget. The Town includes this required supplementary information for the general fund as shown in the table of contents. This budgetary comparison information shows the original budget as voted on and appropriated, the changes made to each individual departmental line item within the budget and the final budget which is compared to the actual revenue and expenditure balances to come up with the favorable or unfavorable variance numbers. The statement of fiduciary net position shows information in regard to the assets and liabilities of the fiduciary funds of the Town which consist of custodial funds. The statement of changes in fiduciary net position shows information in regard to the additions to, subtractions from, and net increase or decrease for the year in fiduciary fund net position.

2. Measurement Focus and Basis of Accounting

In regard to the governmental activities of the Town, the balance sheet and the statement of revenues, expenditures, and changes in fund balances are prepared using the current financial resources measurement focus and the modified accrual basis of accounting for all governmental and fiduciary funds. Capital assets and long-term debt are not recorded as assets or liabilities on the balance sheet of the Town. The basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Under the modified accrual basis of accounting revenues are recognized when they become measurable and available as net current assets. Property tax revenues are recognized when they become available. Available includes those property taxes receivable which are expected to be collected within the first sixty days after the end of the current fiscal year, when applicable. Miscellaneous revenues are recorded when received because they are generally not measurable until actually received. Intergovernmental revenues are accrued, when their receipt occurs soon enough after the end of the accounting period so as to be both measurable and available. The Town generally considers intergovernmental revenues which are received within the first sixty days after the end of the current fiscal year to be both measurable and available. Expenditures are generally recognized under this basis of accounting when the related fund liability is incurred. Exceptions to this general rule include general long-term debt principal and interest which is recognized when due.

D. Deposits and Investments

Cash and cash equivalents include cash on hand as well as amounts in demand deposit accounts and short-term investments with original maturities of three months or less from the date of acquisition. The Town values investments at their fair value based on quoted market prices. Some types of investments authorized by the State of Connecticut include obligations of the United States Government, obligations fully insured or guaranteed by the government or governmental agency, shares in the Connecticut Short-Term Investment Fund and repurchase agreements. The Town may vote to accept investments other than those authorized by the State when they have been donated to the Town.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The Short-Term Investment Fund ("STIF") is a money market investment pool managed by the Cash Management Division of the State Treasurer's Office created by Section 3-27 of the Connecticut General Statutes ("CGS"). Pursuant to CGS 3-27a through 3-27f, the State, municipal entities and political subdivisions of the State are eligible to invest in the fund. The fund is considered a "2a7-like" pool and, as such, reports its investments at amortized cost (which approximates fair value). A 2a7-like pool is not necessarily registered with the Security and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940 that allows money market mutual funds to use the amortized cost to report net assets. The pool is overseen by the Office of the State Treasurer. The pool is rated AAAM by Standard & Poor. This is the highest rating for money market funds and investment pools. The pooled investment funds' risk category cannot be determined since the Town does not own identifiable securities but invests as a shareholder of the investment pool. The fair value of the position in the pool is the same as the value of the pool shares.

E. Receivables & Allowance for Doubtful Accounts

All active property tax, intergovernmental and other receivables are reported net of any allowance for doubtful accounts. The current year fund financial statement accounts receivable balances include active property tax principal amounts of \$1,129,869, intergovernmental amounts due on state, federal and other grant and award agreements as well as other intergovernmental agreements of \$5,289 and other miscellaneous receivable amounts of \$1,365. The current year government-wide financial statements include all of the above mentioned receivable types in addition to accumulated delinquent interest and fees on the active property tax principal amounts. The current year delinquent interest receivable balance is \$351,022. Suspense property tax receivable principal and delinquent interest balances are not included in the financial statements. The Town will book an unbilled receivable in situations when a grant or contract has incurred expenditures which will be reimbursed by a funding source but which have not yet been fully received in cash for the amount incurred. The current fiscal year intergovernmental receivable balance above does not include any unbilled receivable amounts. Included in the above outstanding active property tax principal amount of \$1,129,869 are three grand list tax year billings totaling \$1,006,221 for which the town has been named as a defendant in litigation relating to an assessment made by the Town on certain personal property that is claimed to be exempt by the plaintiff as described in more detail in note 14 to the financial statements. In addition, the above delinquent interest receivable amount of \$351,022 includes amounts relating to these three grand list tax year billings totaling \$308,553. The current allowance for doubtful accounts in relation to the above mentioned accounts receivable balances, including the amounts relating to these three grand list tax year billings, was estimated to be \$0. The Town considers past experience with receivable balance collections and current aging report details when determining its calculation for an allowance for doubtful accounts. Receivables are only written off once it has been determined that all other methods of collection have been utilized without success.

F. Revenue Recognition - Property Taxes

The Town's property tax for the current year was levied June 15, 2023 on the grand list as of October 1, 2022, for the real, motor vehicle and personal property located in the Town at a rate of 24.24 mills. Real estate, personal property and motor vehicle taxes were due on August 1, 2023 and January 1, 2024. Supplemental motor vehicle taxes were due on January 1, 2024. Interest on unpaid taxes commenced 30 days after the aforementioned due dates, at 18% per annum or 1.50% per month. In the fund financial statements, property tax revenues are recorded in the amount of the annual property tax assessment with an adjustment for the amount of principal expected to be collected within the first sixty days after the end of the current fiscal year. In the government-wide financial statements, only the current year principal assessment is recorded as revenue.

G. Tax Acquired Property

Property which has been foreclosed on by the Town due to non-payment of taxes or other similar situations is classified as tax acquired property at the value of the original outstanding tax receivable amount. Interest and fees on the property are recorded at such time when the property is sold. The current value of the recorded tax acquired property of the town was \$7,837.

H. Inventories

In the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used which is in accordance with the consumption method. On the fund financial statements, inventories are presented at cost on a first-in, first-out basis and are recorded as expenditures when used. The Town does not currently have any material and reported inventory amounts.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

I. Prepaid Items

Payments made to vendors for goods and services that will benefit periods beyond the end of the fiscal year are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expense-expenditure in the subsequent year (s) in which the goods or services are consumed. Expenditures relatively minor in nature for insurance and similar services extending over more than one accounting period need not be allocated between or among accounting periods, but may be accounted for as expenditures of the period of acquisition. The Town generally considers relatively minor in nature to include aggregated similar items not exceeding \$2,500. Payments made to vendors for goods and services that will only benefit periods beyond the end of the fiscal year which are related to grants are recorded as prepaid items regardless of the dollar amount. The general fund has prepaid items of \$6,770 which are made up of school service contracts, dues and membership billings for the upcoming fiscal year in the amount of \$6,234 and miscellaneous town amounts of \$536.

J. Capital Assets

Capital assets of the Town may include land, land improvements, buildings, building improvements, vehicles, equipment, right to use assets, subscription assets, infrastructure, and all other tangible and intangible assets which may arise that are used in operations and that have an initial useful life extending beyond a single fiscal year. Infrastructure assets are long-lived capital assets that are normally stationary in nature and can normally be preserved for a significantly greater number of years than most capital assets. The types of infrastructure assets recorded by the Town include but are not limited to improved town roads, unimproved town roads, and bridges. All improvements to infrastructure and other capital assets are capitalized which add to the value or materially extend the life of the asset. All capital assets of the Town are recorded at historical cost or estimated historical cost when the actual amount is not available. The historical cost of these assets includes not only the cost of the asset but also capitalized interest charges and other direct costs associated with placing the asset into its intended location and its intended use. The Town generally maintains a capitalization threshold of \$5,000 for all capital assets with the exception of land purchases which are recorded regardless of amount. Donated capital assets are reported at their estimated fair value at the time of acquisition plus other direct costs associated with placing the asset into its intended location and use. Capital assets are only shown on the government-wide statement of net position.

Land is not depreciated. All other individual capital assets of the Town are depreciated over their estimated useful lives using the straight line method. Under this method, the recorded cost of each capital asset less any estimated residual value is divided by the estimated useful life resulting in an even amount of depreciation to be taken on an annual basis. The estimated residual value is the amount that the capital asset is expected to be worth at the end of its useful life. The general estimated useful lives for specific types of capital assets are 3 - 10 years for equipment, 5 - 20 years for vehicles, 30 - 50 years for buildings and building improvements and infrastructure. Capital assets which are under construction but not yet completed are recorded as construction in progress. These capital assets will not begin to be depreciated until they are completed. Depreciation expense is allocated to the specific functions (sometimes referred to as departments) of the Town based on which function purchased or benefits from the assets. Depreciation on assets shared between two or more functions is allocated based on the percentage purchased by each function. If the benefit received from these assets shifts from the function making the purchase to another function in a material amount, the depreciation amount being charged will be shifted accordingly. Depreciation on capital assets which benefit all of the functions of the Town, such as infrastructure assets, is shown as a separate line item. Depreciation expense on capital assets is only shown on the government-wide statement of activities.

K. Leases and Right to Use Lease Assets

The Town may at times lease land, buildings and equipment as part of lease agreements under which the Town is the lessee. Under these lease agreements, the Town recognizes a lease liability and an intangible right to use lease asset (lease asset) in the applicable governmental activities and business-type activities in the government-wide financial statements and in the proprietary fund financial statements (when present). The Town generally recognizes lease liabilities with an initial, individual value of \$5,000 or more though lease liabilities are considered individually and in the aggregate.

At the beginning of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. The future lease payments should be discounted using the interest rate the lessor charges the lessee, which may be the interest rate implicit in the lease. If the interest rate cannot be readily determined by the Town, the Town's estimated incremental borrowing rate (an estimate of the interest rate that would be charged for borrowing the lease payment amounts during the lease term) should be used. Subsequently, the lease liability is reduced by the principal portion of lease payments made. Lease liabilities are reported with long-term debt on the statement of net position.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. The lease asset is amortized on a straight line basis over the shorter of the lease term or the useful life of the underlying asset. If a lease contains a purchase option that the lessee has determined is reasonably certain of being exercised, the lease asset should be amortized over the useful life of the underlying asset. Lease assets are reported with other capital assets on the statement of net position.

The Town monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that individually or in the aggregate are expected to significantly affect the amount of the lease liability. Examples of changes that may occur to a lease that may result in the need for a remeasurement of the lease liability would include a change in the lease term, a change in the interest rate the lessor charges the Town, if used as the initial discount rate or an assessment of all relevant factors indicates that the likelihood of a purchase option being exercised has changed from reasonably certain to not reasonably certain, or vice versa.

L. Subscription Liabilities and Right to Use Subscription Assets

The Town may at times enter into Subscription Based Information Technology Arrangements (SBITA's). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. Under these SBITA agreements, the Town recognizes a subscription liability and an intangible right to use subscription asset (subscription asset) in the applicable governmental activities and business-type activities in the government wide financial statements and in the proprietary fund financial statements (when present). The Town generally recognizes subscription liabilities with an initial, individual value of \$5,000 or more though subscription liabilities are considered individually and in the aggregate.

At the beginning of a SBITA, the Town initially measures the subscription liability at the present value of payments expected to be made during the term of the agreement. These future payments should be discounted using the interest rate the vendor charges the Town, which may be the interest rate implicit in the agreement. If the interest rate cannot be readily determined by the Town, the Town's estimated incremental borrowing rate (an estimate of the interest rate that would be charged for borrowing the payment amounts during the term of the agreement) should be used. Subsequently, the subscription liability is reduced by the principal portion of the payments made. Subscription liabilities are reported with long-term debt on the statement of net position.

The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for payments made at or before the agreement commencement date, plus certain initial direct costs. The subscription asset is amortized on a straight line basis over the shorter of the agreement term or the estimated useful life of the underlying asset.

The Town monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the subscription asset and liability if certain changes occur that individually or in the aggregate are expected to significantly affect the amount of the subscription liability. Examples of changes that may occur to a SBITA that may result in the need for a remeasurement of the subscription liability would include a change in the agreement term and a change in the interest rate the vendor charges the Town.

M. Unearned Revenue and Deferred Inflows and Outflows of Resources

In the government-wide financial statements, revenue amounts which have been received in cash but not yet earned or recognized are recorded as unearned revenue in accordance with the accrual basis of accounting. The current fiscal year unearned revenue balance of the governmental activities totaled \$98,740 which is made up of unearned education grant balances of \$63,933, unearned town grant balances of \$31,807 and prepaid rent for the upcoming fiscal year of \$3,000. In the fund financial statements, revenues are recognized when they are both measurable and available to pay current liabilities in accordance with the modified accrual basis of accounting. In the fund financial statements, for government-mandated non-exchange transactions as well as voluntary non-exchange transactions which would include certain governmental grants received by the Town, revenues are recognized in the period when all applicable eligibility requirements have been met and when the resources are available. For grant agreements, once the Town has received the funds and is within the allowable spending period all applicable eligibility requirements are deemed to have been met at which time the purpose restrictions related to how the grant funds need to be spent become applicable. Any grant revenues which have been recognized because the Town has met all the applicable eligibility requirements but for which they have not yet met all of the purpose restrictions associated with the grant agreement are recorded as restricted fund balance amounts at the end of the fiscal year. In the fund financial statements, the current fiscal year unearned revenue balance of the governmental funds as shown on the balance sheet totaled \$3,000. This amount represents the above mentioned prepaid rent for the upcoming fiscal year.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period (s) and so will not be recognized as an outflow of resources (expense) until that time. The governmental activities of the Town do not currently have any deferred outflows of resources items or amounts recorded on the statement of net position.

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental activities of the Town do not currently have any deferred inflows of resources items or amounts recorded on the statement of net position. The governmental funds of the Town currently report on the balance sheet unavailable revenue from property taxes which is calculated when considering the amount of property taxes receivable not expected to be received within the first 60 days after the fiscal year end in this category. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The current fiscal year deferred inflow of resources balance relating to these property taxes receivable is \$1,117,287.

N. Interfund Receivables and Payables

Inter fund receivables and payables represent the balance of activity between the different funds of the Town. These activities include but are not limited to transfers which were not physically made, a portion of the annual tax commitment which may be applicable to certain special revenue and other funds of the Town which are shown as transfers within the annual budget document approved by the inhabitants of the Town and cash receipts which may have been deposited in the cash account of one fund but which are for the use of another fund. The actual receipt of this tax and other revenue is deposited into the general fund and accounted for as an inter fund receivable. Expenditures for one fund paid for out of another fund are also included in these balances. The inter fund balances and related activities of the governmental funds have been eliminated in the government-wide statement of net position and the statement of activities, however, the inter fund balances and related activity between the governmental and fiduciary fund activities of the Town are not eliminated on these statements when present.

O. Accounts Payable, Accrued Payroll and Other Liabilities

The accounts payable balance of the Town is used to account for the expenses or expenditures related to invoices for the current fiscal year which have been received but which have not yet been paid. Under both the accrual and modified accrual basis of accounting expenses and expenditures are recorded when they are incurred. The accrued payroll balance is made up of amounts earned through hours worked prior to the end of the fiscal year which were not physically paid until after the end of the fiscal year. The other liabilities balance as shown on both the government-wide and fund financial statements of \$11,927 is made up of maintenance and driveway bonds of \$5,000 which have been received but not yet fulfilled and thus not yet returned, school payroll withholding amounts not yet remitted of \$6,842 and town payroll withholding amounts not yet remitted of \$85.

P. Long-Term Obligations and Related Costs

Long-term debt and other long-term obligations are reported as liabilities on the governmental-wide statement of net position. Bond premiums and discounts are capitalized and amortized over the life of the bonds using the straight line method. The unamortized portion is presented in the government-wide statement of net position as a component of bonds payable. Bond issuance costs are reported as expenses when incurred. The fund financial statements recognize bond premiums and discounts, as well as bond issuance costs, during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Q. Encumbrance Accounting

In the fund financial statements, encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of the materials or services. For budgetary purposes, appropriations lapse at fiscal year-end. The Town of Hampton does utilize encumbrance accounting. Outstanding encumbrances represent assigned fund balance as the related expenditures have not yet flowed down to and reduced fund balance. As of June 30, 2024, the assigned general fund balance as shown on the balance sheet relating to outstanding town encumbrances totaled \$0 and to outstanding school general fund encumbrances totaled \$5,640.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

R. Fund Balance Classification Policies and Procedures

Within the fund financial statements, the fund balance amounts of the governmental funds of the Town as shown on the balance sheet are broken down between nonspendable, restricted, committed, assigned and unassigned. These fund balance classifications are described as follows:

- a. **Nonspendable fund balance** - Nonspendable fund balance include amounts that cannot be spent because they are either (a) not in a spendable form such as inventories or prepaid expenditures or (b) they are legally or contractually required to be maintained intact such as the principal portion of a permanent fund. The nonspendable funds balance amounts as reported by the Town consist solely of the principal portion of its permanent funds and a corresponding amount for the recorded amount of inventory and prepaid expenditures when applicable.
- b. **Restricted fund balances** - Restricted fund balance include amounts that are restricted to a specific purpose when the restraints are placed on the use of the resources either by (a) externally imposed creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the Town to assess, levy, charge or otherwise mandate payment of resources from external sources and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. The restricted fund balance amounts of the Town consist of the residual fund balance amounts at the end of the fiscal year as they relate to grants received from either state, federal or local funding sources or donations received to be spent for specific purposes. These amounts are restricted to be expended on the items outlined within the funding agreement with the Town or for which funds are being donated and cannot be used for any other specified purposes. In addition, the Town has created a special revenue fund to account for and report the proceeds of funds collected by the town clerks office as mandated by the State of Connecticut in relation to historic document preservation fees and a town clerk discretionary fund. These mandated fees are considered a form of enabling legislation imposed by the state and therefore the funds collected by the Town are restricted to be expended based on the parameters of the enabling legislation. Other funds restricted by the Town include the balance of the small cities program income fund which relates to housing rehabilitation grants received by the Town, the non-principal portion of permanent funds and other similar funds as applicable based on the parameters of the funding source.
- c. **Committed fund balance** - Committed fund balance include amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision making authority. These committed amounts cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The Board of Finance is considered to be the highest level of decision making authority within the Town for determining committed fund balance amounts. The Board of Finance has the final approval for the budget amounts which are presented to the citizens of the Town for approval and in turn the establishment of the related special revenue or capital project funds. The approval of the annual town budget includes amounts characterized as specific revenue sources as a portion of either the annual tax commitment or other specific revenue sources contained and voted on within the annual budget. An example of a committed fund balance amount would relate to an approved transfer to an established special revenue fund or the capital nonrecurring fund. The residual fund balance amount within these funds at the end of the fiscal year would be classified as committed fund balance. Any subsequent change in the specific purpose or use of these committed funds would need to be approved either at the annual town meeting or a special town meeting.
- d. **Assigned fund balance** - Assigned fund balance include amounts that are constrained by the Town with the intent to be used for specific purposes, but which are neither restricted or committed. The intent to use funds for specific purposes is to be assigned by either town meeting appropriations or the Board of Finance. The First Selectman has the authority to accept funds on behalf of the Town which are specific revenue sources to be used for specific purposes and to establish special revenue or capital project funds to account and report these amounts in accordance with the direction received from the Board of Finance. Assigned special revenue and capital project funds are usually made up of small streams of specific revenue sources for specific purposes for which there is a perceived benefit to segregating and reporting the funds rather than including them within the general fund. In addition, annual budgetary encumbrances outstanding at the end of the fiscal year would be classified by the Town as assigned amounts within the general fund or specific special revenue funds or capital project funds. Subsequent fiscal year budgeted appropriations of the unassigned general fund balance are also reported as assigned fund balance amounts of the general fund at the end of the current fiscal year as long as the subsequent budget has been approved.
- e. **Unassigned fund balance** - Unassigned fund balance is the residual classification for the general fund of the Town. This classification represents fund balance amounts that have not been assigned to other funds and that have not been restricted, committed or assigned to specific purposes within the general fund. In addition, individual governmental funds whose ending fund balance is negative are also classified as unassigned within the specific fund.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The Town does not have an established policy relating to the use of unrestricted fund balance amounts as it relates to when it considers committed, assigned or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of these three unrestricted classifications could be used. Absent of an established policy which addresses this situation, accounting guidance states that it should consider that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts. In addition, restricted fund balance amounts are considered to have been spent prior to unrestricted amounts under the same circumstances. The following table is designed to provide more detailed information regarding the aggregated fund balance classifications which are included on the balance sheet. Additional information on individual fund balance classifications can be found in the individual combining fund schedules starting on page 51.

	General fund	Small cities program fund	Capital & nonrecurring fund	Non-major governmental funds	Total governmental funds
Fund balances:					
Nonspendable:

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

S. Major Funds

Within the fund financial statements, the focus of the governmental funds of the Town is on the major funds. The general fund of the Town must always be shown as a major fund. In addition, other governmental funds are shown as major based on an evaluation of the following criteria.

- a. The total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses (excluding extraordinary items) of an individual governmental or enterprise fund are at least 10% of the corresponding totals for all governmental or enterprise funds and
- b. The total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses (excluding extraordinary items) of an individual governmental or enterprise fund are at least 5% of the corresponding totals for all governmental and enterprise funds combined.
- c. Any other individual governmental or enterprise (if present) fund that the Town believes is particularly important to the financial statement users whether because of public interest, consistency, or other reasons.

For the purposes of the current fiscal year fund financial statements, the following individual governmental funds have been classified as major. A brief description of the fund and the activities reported within the fund is as follows. Additional financial information on the capital and non-recurring fund can be found in Sub-Schedule A starting on page 57 of the financial statements.

- d. Small cities program fund - This fund is used to account for and report the proceeds and activity of housing rehabilitation Community Development Block Grants received from the U.S. Department of Housing and Urban Development. The purpose of these grants is to provide assistance to low to moderate income residents for addressing housing needs with a priority being placed on public health and safety code violations and to establish a permanent loan fund using the proceeds. Each resident receiving benefits under these grants is required to sign a deferred promissory note. The Town does not currently have any active grants in relation to this program and is currently using this major fund to account for the outstanding deferred promissory notes and program income funds which result from the repayment of these notes.
- e. Capital & non-recurring fund - This fund is used to account for financial resources to be used by the Town to purchase or construct capital assets or projects and other non-recurring expenditures. The capital assets purchased through this fund are usually more costly than those purchased and accounted for within other funds, functions, and departments. The activities within this fund are financed through annual appropriations as approved as part of the annual budget and through other miscellaneous grants, revenues and transfers.

T. Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting (except in relation to teacher on-behalf payments made by the State which are not budgeted for and encumbrances) which is consistent with generally accepted accounting principles. In addition, the budget calls for certain amounts to be transferred or allocated to specific funds which have been set up by the Town for specific purposes. A portion of the budgeted revenues to be raised by the annual tax commitment are considered by the Town to be a specific revenue source which are committed to expenditure for these specified purposes. The budget calls for the revenue to be shown within the general fund and a transfer out to be shown to each of these specific funds. These specific portions of the annual tax commitment are shown within each specific special revenue and capital project fund, as applicable, as a transfer in rather than as property tax revenue. The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each general function of the Town. Only the Board of Finance may approve budget transfers within and between expenditure classes and individual departments in accordance with established town practices and the applicable State statutes. The bottom line budgeted revenue and expenditure amounts can only change upon approval of the inhabitants of the Town through a special town meeting. The procedures followed in establishing the budgetary data reflected in the financial statements are as follows:

- a. Early in the second half of the last fiscal year the Town's selectmen, departments, boards and commissions submitted budget requests for the year beginning July 1. The operating budgets include proposed expenditures and the means of financing them.
- b. Hearings are then held for the submitted budget requests by functions: (1) Selectmen's budget, (2) departments, (3) boards and commissions, (4) capital and nonrecurring requests and (5) Board of Education.
- c. A meeting of the inhabitants of the Town is then called for the purpose of adopting the proposed budget after public notice of the meeting had been given. The current fiscal year budget was approved by referendum on June 15, 2023.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The following is a reconciliation of the GAAP basis - Statement D and Budgetary basis - RSI-1 reported revenues, expenditures and changes in fund balances for the general fund as of June 30, 2024.

Town general fund	Revenues	Expenditures	Other financing sources (uses)	Net change in fund balance
GAAP basis - Statement D	\$ 5,783,983	\$ -5,451,319	\$ -427,808	\$ -95,144
Current fiscal year encumbrances	-	-5,640	-	-5,640
Prior fiscal year encumbrances	-	-	-	-
Non-cash right to use lease activity		23,448	-23,448	-
State on-behalf benefits related to pensions	-271,571	271,571	-	-
State on-behalf benefits related to OPEB	-3,696	3,696	-	-
Budgetary basis - RSI-1	<u>\$ 5,508,716</u>	<u>\$ -5,158,244</u>	<u>\$ -451,256</u>	<u>\$ -100,784</u>

U. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates.

Note 2 - Restricted Cash and Investments

The Town breaks cash and investments down between a regular asset and a restricted asset on the government-wide statement of net position. The restricted cash and investment balances are made up of cash and investment balances relating to restricted net position balances which are restricted for specific purposes in subsequent fiscal years. The current year amounts shown on the government-wide statement of net position can be broken down as follows.

	Restricted cash	Restricted investments
Small cities program funds	\$ 581,580	\$ -
Restricted contribution funds	3,482	-
Enabling legislation related funds	5,498	-
Unearned state, federal, and other grant program balances	95,740	-
Non-major permanent and other funds	2,102	30,113
	<u>\$ 688,402</u>	<u>\$ 30,113</u>

Note 3 - Deposits and Investments

The deposit of public funds is controlled by the Connecticut General Statutes Section 7-402. Deposits may be made in a qualified public depository as defined by the statute or, in amounts not exceeding FDIC insurance limits, in an out of state bank as defined by the statute, which is not a qualified public depository. Section 7-400 of the statutes permit municipalities to invest public funds in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open-end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the statutes cover specific municipal funds with investment authority. The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF) and the State Tax Exempt Proceeds Fund (TEPF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Deposits

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a formal deposit policy for custodial credit risk beyond the requirements of State statutes. The bank accounts of the Town are covered by FDIC insurance up to \$250,000 in demand deposit accounts and up to \$250,000 in time deposit accounts per financial institution. At year end, the carrying amount of the Town's deposits was \$1,895,511 which is shown in the financial statements as cash balances of \$1,600,874 (\$1,594,962 on Statement C and \$5,912 on Statement E) and investment balances of \$294,637 which represents certificates of deposit. The corresponding bank balances of these accounts at various financial institutions totaled \$1,922,350 with the difference between the two amounts being represented by timing differences with outstanding checks, deposits in transit and cash on hand. Of these bank balances, \$1,030,113 was determined to be covered by FDIC with the remaining \$892,237 representing balances that were determined to be uninsured and collateralized in part, as described in the following paragraph, by securities held by the pledging financial institutions' trust department or agent but not in the Town's name.

The Town does not have a formal deposit policy for custodial credit risk beyond the requirements of State statutes. All of the Town's deposits are in qualified public institutions as defined by state statute. Under this statute, any bank holding public deposits must at all times maintain, segregated from its other assets, eligible collateral in an amount equal to a certain percentage of its public deposits. The applicable percentage is determined based on the bank's risk-based capital ratio. The amount of public deposits is determined based on either the public deposits reported on the most recent quarterly call report, or the average of the public deposits reported on the four most recent quarterly call reports, whichever is greater. The collateral is kept in the custody of the trust department of either the pledging bank or another bank in the name of the pledging bank.

Investments

The following schedule shows these different types of investments as held by the Town, the maturities of these investments and the associated credit ratings as of June 30, 2024.

Type	Fair value	Maturities in years			Credit ratings
		Less than 1 year	1 - 5 years	6 - 10 years	S & P
Governmental types & funds:					
CT short term investment fund	\$ 849,896	\$ 849,896	\$ -	\$ -	AAAm
Certificates of deposit	294,637	294,637	-	-	not rated
	<u>\$ 1,144,533</u>	<u>\$ 1,144,533</u>	<u>\$ -</u>	<u>\$ -</u>	

Interest Rate Risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Credit Risk - The Town does not have a formal investment policy that would further limit its investment choices beyond those limited by Connecticut State statutes. The types of investments authorized to be carried by the Town are in accordance with those authorized by the State of Connecticut. These investments include obligations of the United States Government, obligations fully insured or guaranteed by the government or governmental agency, and repurchase agreements. The Town may vote to accept investments other than those authorized by the State in situations where they have been donated to the Town. Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a formal policy for custodial credit risk.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB statements require or permit in the statement of net position or balance sheet at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date; Level 2 inputs are other than quoted prices in Level 1 that are observable for the asset or liability, or similar assets or liabilities either directly or indirectly through corroboration with observable market data; Level 3 inputs are significant unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The investments of the Town were measured at level 1 as of June 30, 2024.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Note 4 - Interfund Receivables, Payables and Transfers

Interfund receivables and payables - The Town maintains a cash pool that is available for use by all funds. Each fund's portion of this pool is displayed on the balance sheet as "due to or from other funds" under each fund's caption. The purpose for interfund balances is to keep track of each fund's position in this cash pool. These balances are not expected to be repaid due to the fact that they simply represent funds collected or spent by one fund on behalf of another fund. The following information represents interfund receivables and payables by individual major fund and non-major funds in the aggregate. Only the balances for major funds are being shown. The following fund financial statement inter fund balances are eliminated in the government-wide financial statements with the exception of fiduciary funds and business type activities balances which are shown as internal balances on the statement of net position when present. Separate balances may show up in both the due from and due to column of the general fund. This is because individual funds within each of the below listed fund types may have either a due to or a due from balance.

	Receivable due from	Payable due to
General fund:		
Capital non-recurring fund	\$ -	\$ 6,868
Non-major special revenue funds	11,332	122,698
	11,332	129,566
Fiduciary funds	268	-
	\$ 11,600	\$ 129,566
 Capital non-recurring fund:		
General fund	\$ 6,868	\$ -
Non-major special revenue funds	-	5,456
	\$ 6,868	\$ 5,456

Interfund transfers - Transfers in and out represent either budgeted or operating transfers which are not always physically made but need to be recorded to keep track of the individual fund balances. There were no transfers made by the Town during the current fiscal year which were significant which have been deemed not to have occurred on a routine basis and which are inconsistent with the activities of the fund (s) making the transfer (s). The transfers made during the current fiscal year were those budgeted transfers included and approved as part of the annual budget document or subsequently approved by a special town meeting or by Board of Finance or Board of Education motion as applicable. The first general fund to capital non-recurring fund transfer out represents the amount included in the annual budget approved at town referendum on June 15, 2023, the second amount represents a transfer approved at a special town meeting on September 21, 2023 for town hall campus and community center improvements and the third amount represents a transfer approved by the Board of Education on August 28, 2024 relating to the transferring of a portion of the remaining current fiscal year unspent education budget to the school capital fund in accordance with State legislature section 10-248a. The general fund to non-major special revenue funds transfer out represents the annual budgeted transfer from the school budget to the school lunch program in the amount of \$23,520 and the annual transfer to the town recreation activities special revenue fund. The aforementioned budget transfers to and from the general fund and to and from the other funds of the town are as follows.

	Transfers in	Transfers out
General fund:		
Capital non-recurring fund	\$ -	\$ -126,010
Capital non-recurring fund	-	-290,000
Capital non-recurring fund	-	-6,826
Non-major special revenue funds	-	-28,420
	\$ -	\$ -451,256
 Capital non-recurring fund:		
General fund	\$ 422,836	\$ -

Town of Hampton, Connecticut

Note 5 - Capital Assets

The following schedule shows the capital asset activity for the fiscal year ended June 30, 2024. Information about the specific accounting policies of the Town in relation to capital assets can be found in note 1J on page 22 of the notes to the financial statements. Though subscription assets are amortized rather than depreciated, the two amounts are being combined for financial reporting purposes.

	Balance 07/01/23	Additions	Retirements	Balance 06/30/24
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 936,485	\$ -	\$ -	\$ 936,485
Capital assets being depreciated:				
Right to use assets	40,478	23,448	-23,469	40,457
Subscription assets	35,239	-	-	35,239
Buildings and improvements	7,918,661	49,109	-12,225	7,955,545
Vehicles	1,713,315	840,270	-	2,553,585
Equipment	816,904	17,228	-	834,132
Infrastructure and improvements	4,490,317	331,908	-	4,822,225
Total at historical value	<u>15,014,914</u>	<u>1,261,963</u>	<u>-35,694</u>	<u>16,241,183</u>
Less accumulated depreciation for:				
Right to use assets	-31,521	-10,117	23,469	-18,169
Subscription assets	-22,319	-7,048	-	-29,367
Building and improvements	-5,250,702	-226,734	12,225	-5,465,211
Vehicles	-1,231,952	-45,164	-	-1,277,116
Equipment	-506,711	-58,714	-	-565,425
Infrastructure and improvements	-1,504,466	-213,538	-	-1,718,004
Total accumulated depreciation	<u>-8,547,671</u>	<u>-561,315</u>	<u>35,694</u>	<u>-9,073,292</u>
Total capital assets being depreciated (net)	<u>6,467,243</u>	<u>700,648</u>	<u>-</u>	<u>7,167,891</u>
Governmental activities capital assets (net)	<u>\$ 7,403,728</u>	<u>\$ 700,648</u>	<u>\$ -</u>	<u>\$ 8,104,376</u>

Depreciation and amortization expense taken on the governmental activities capital assets of the town are charged by function or department in the government-wide financial statements. During the current fiscal year depreciation was charged to general government - \$59,457, public safety - \$27,988, public works - \$72,151, sanitation and waste - \$1,147, education - \$197,847 and general infrastructure - \$202,725 for a total current fiscal year depreciation expense amount of \$561,315.

Note 6 - Net Position Balances - Net Investment in Capital Assets

The net investment in capital assets net position amount on the government-wide statement of net position consisted of the following items as of June 30, 2024.

	Governmental activities
Recorded value of capital assets	\$ 17,177,668
Less accumulated depreciation	-9,073,292
Book value of capital assets	<u>8,104,376</u>
Less capital assets related debt	<u>-29,190</u>
Total net investment in capital assets	<u>\$ 8,075,186</u>

June 30, 2024

Note 7 - Long-Term Debt and Other Liabilities

The long-term debt and other liabilities of the Town are made up of the following individual debt agreements and amounts. Long-term debt and other liabilities are shown on the government-wide financial statements as governmental activities items on the statement of net position.

	Balance 07/01/23	Additions	Reductions	Balance 06/30/24	Amount due within one year
Governmental activities:					
Outstanding payables:					
Right to use leases payable	\$ 9,565	\$ 23,448	\$ -10,323	\$ 22,690	\$ 7,491
Subscription liability payable	13,952	-	-7,452	6,500	6,500
	<u>23,517</u>	<u>23,448</u>	<u>-17,775</u>	<u>29,190</u>	<u>13,991</u>
Other liabilities:					
Accrued comp. balances - town	9,323	2,638	-	11,961	
Accrued comp. balances - school	3,000	-	-	3,000	
Other post-employment benefits	55,262	-	-8,008	47,254	
Total other liabilities	<u>67,585</u>	<u>2,638</u>	<u>-8,008</u>	<u>62,215</u>	
Total long-term liabilities	<u>\$ 91,102</u>	<u>\$ 26,086</u>	<u>\$ -25,783</u>	<u>\$ 91,405</u>	<u>\$ 13,991</u>

Outstanding right to use leases payable:

The Town entered into a copier lease agreement in the amount of \$17,009 in December of 2020. The lease agreement is for 48 months with monthly lease payments of \$389. The lease liability is measured at a discount rate of 4.65% based on the Town's estimated incremental borrowing rate. The Town has recorded a right to use equipment asset with a capitalized value less accumulated amortization of \$1,771 as of June 30, 2024. \$ 1,923

The Board of Education entered into a copier lease agreement in the amount of \$23,469 in January of 2020. The lease agreement is for 48 months with monthly lease payments of \$537. The lease liability is measured at a discount rate of 4.65% based on a stated interest rate. The Town has recorded a right to use equipment asset with a capitalized value less accumulated amortization of \$0 as of June 30, 2024. -

The Board of Education entered into a copier lease agreement in the amount of \$23,448 in January of 2024. The lease agreement is for 48 months with monthly lease payments of \$540. The liability is measured at a discount rate of 5.00% based on the Town's estimated incremental borrowing rate. The Town has recorded a right to use equipment asset with a capitalized value less accumulated amortization of \$20,517 as of June 30, 2024. 20,767
\$ 22,690

Outstanding subscription liability payable:

The Town Clerk entered into a Subscription Based Information Technology Arrangement in relation to the access and use of a land records management system and open architect land records document management, imaging and workflow software in May of 2020. The arrangement is for 60 months with monthly payments of \$665. The liability is measured at a discount rate of 5.00% based on the Town's estimated incremental borrowing rate. The Town has recorded a subscription asset with a capitalized value less accumulated amortization of \$5,872 as of June 30, 2024. \$ 6,500

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The following is a summary of the total outstanding principal and interest cash flow requirements for the right to use leases payable of the Town for the fiscal years ending June 30:

	Principal	Interest	Total
2025	\$ 7,491	\$ 934	\$ 8,425
2026	5,853	627	6,480
2027	6,153	328	6,481
2028	3,193	47	3,240
2029	-	-	-
	<u>\$ 22,690</u>	<u>\$ 1,936</u>	<u>\$ 24,626</u>

The following is a summary of the total outstanding principal and interest cash flow requirements for the subscription liability payable of the Town for the fiscal years ending June 30:

	Principal	Interest	Total
2025	\$ 6,500	\$ 150	\$ 6,650
2026	-	-	-
2027	-	-	-
2028	-	-	-
2029	-	-	-
	<u>\$ 6,500</u>	<u>\$ 150</u>	<u>\$ 6,650</u>

Interest expense

The total interest expense incurred by the Town during the current fiscal year totaled \$1,332. In the fund financial statements, this amount is shown in the general fund within general government expenditures in the amount of \$731 and within education expenditures in the amount of \$601. In the government-wide financial statements, the total interest expense incurred by the Town of \$1,332 is shown as interest expense.

Accrued compensated absences

Non-elected full time employees of the Town are allowed to earn paid absences for vacation and sick time. The employee's right to be paid for these future vacation and sick time absences are attributable to services already performed and earned vacation and sick time balances do accumulate. Town accumulated vacation balances are paid when an employee leaves. Therefore, the probability of these benefits being paid can be determined and a liability has been recorded in the accompanying government-wide financial statements on the statement of net position. However, town accumulated sick time balances are not paid when an employee leaves and therefore no liability has been recorded in the accompanying government-wide financial statements on the statement of net position. As of June 30, 2024, the value of these accumulated sick time balances was approximately \$8,072. A current portion of the recorded liability for these vacation benefits has not been estimated due to the fact that it cannot be accurately determined when and in what amount individuals will use these vacation benefits during the upcoming fiscal year.

Teachers retiring from teaching after 15 years of service, the last 10 of which are in the Hampton elementary school, shall be paid a severance benefit of on \$150 per year of service (prorated to full-time equivalent years of service for part-time teachers) up to a maximum of \$1,500. Any teacher who honorably leaves the Hampton elementary school after 11 years of service (prorated to full-time equivalent years of service for part-time teachers) and who is not dismissed for cause, shall be entitled to a severance benefit calculated as follows: Teachers shall be paid 25% of their prorated daily salary for each accumulated sick leave day in excess of the statutory maximum accumulation of 150 sick days, provided that such benefit shall not exceed \$1,500. The current recorded liability for these earned severance payments is \$3,000 as of June 30, 2024. A current portion of the recorded liability for these severance payments has not been estimated due to the fact that it cannot be accurately determined which individuals will leave the employment of the Board of Education during the upcoming fiscal year thus receiving the applicable severance payment amount.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Note 8 - Net Position and Fund Balances - Restricted

The Town has received a number of housing rehabilitation CDBG grants from the U.S. Department of Housing and Urban Development which are accounted for within the small cities program major fund. The purpose of these grants is to provide assistance to low to moderate income residents for addressing housing needs with a priority being placed on public health and safety code violations and to establish a permanent loan fund using the proceeds. Each resident receiving benefits under these grants is required to sign a deferred housing rehabilitation program property lien agreement. Should said property be mortgaged, sold, or beneficial interest or title be transferred, the balance of the principal due under the terms of the Assistance Agreement will be paid in full to the Town at the time of sale. The proceeds of any such sale being deposited into the aforementioned loan fund and permanently used by the Town for other similar programs as described in the approved program income reuse plan. Program income including interest income must be deposited into this loan fund. The activity of this program is accounted for in two separate ways in that the revenue and expenditures relating to any actual CDBG grants is accounted for separately from the program income. Revenue is recorded within the program income fund in the amount of any new and completed property lien agreements. Expenditures within the program income fund include administrative and other miscellaneous items as well as the amounts of property lien agreements written off during the fiscal year. The residual of this fund is accounted for as restricted net position and fund balance as the Town feels that the recorded revenue has been earned and is both measurable and available to pay all applicable current liabilities of the program fund. As of June 30, 2024, the following balances represent the loan fund described above.

Cash and restricted cash	\$ 581,580
Notes receivable (net of allowance)	2,352,398
Restricted net position and restricted fund balance	-2,933,978
	\$ -

Note 9 - Defined Benefit Pension Plan

Connecticut Teachers' Retirement System

Plan description - Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at www.ct.gov.

Benefits provided - The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut. In relation to normal retirement, retirement benefits for employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary). In addition, amounts derived from the accumulation of 6% contributions made prior to July 1, 1989 and voluntary contributions are payable. In relation to early retirement, employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service. Benefit amounts are reduced by 6% per year for the first 5 years preceding normal retirement age and 4%, per year for the next 5 years preceding the normal retirement age. Effective July 1, 1999, the reduction for individuals with 30 or more years of service is 3% per year as retirement precedes normal retirement date. In relation to disability retirement, employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for non-service related disability eligibility. Disability benefits are calculated as 2% per year of service times the average of the highest three years of pensionable salary, as defined per the Plan, but not less than 15% of average annual salary, nor more than 50% of average annual salary. In addition, disability benefits under this plan (without regard to cost-of-living adjustments) plus any initial award of social security benefits and workers' compensation cannot exceed 75% of average annual salary.

In relation to minimum benefits, effective January 1, 1999, Public Act 98-251 provides a minimum monthly retirement benefit of \$1,200 to teachers who retire under the normal benefit provisions and who have completed at least 25 years of full time Connecticut service at retirement. In relation to prorated benefits, a plan member who leaves service and has attained 10 years of service will be entitled to 100% of the accrued benefit as of the date of termination of covered employment. Benefits are payable at age 60 and early retirement reductions are based on the number of years of service the member would have had if they had continued to work until age 60. In relation to pre-retirement death benefits, the plan also offers a lump sum return of contribution with interest or surviving spouse benefit depending on the length of service.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Contribution requirements - Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly. The statutes require the State of Connecticut to contribute 100% of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability. School District employers are not required to make contributions to the plan. Effective July 1, 1992, each teacher is required to contribute 6% of pensionable salary for the pension benefit. Effective January 1, 2018, the required contribution increased to 7% of the pensionable salary.

Pension liabilities, pension expense, deferred outflows of resources, and deferred inflows of resources related to pensions - The Town reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows due to the statutory requirement that the State pay 100%, of the required contribution. The amounts recognized by the Town as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the Town were as follows. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023. For the year ended June 30, 2024, the Town recognized \$271,571 of on-behalf contributions made by the state in both the fund and government-wide financial statements as on-behalf revenues and expenditures/expenses. For the year ended June 30, 2024, the Town recognized \$280,223 for its share of pension revenue and expense for on-behalf benefits provided by the state in the government-wide financial statements as on-behalf and benefits revenues and expenses.

Town's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the Town	2,926,785
Total	\$ 2,926,785

Actuarial assumptions - The total pension liability was determined by an actuarial valuation as of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in benefit terms	None
Changes in assumptions	None
Inflation	2.50%
Salary increases	3.00% to 6.50%, including inflation
Investment rate of return	6.90%, net of pension plan investment expense, including inflation
Administrative expenses	\$0 assumption as expenses are paid for by the General Assembly
Mortality rates	Mortality rates were based on the PubT-2010 Healthy Retiree Table (adjusted 105% for males and 103% for females as ages 82 and above), projected generationally with MP-2019 for the period after service retirement

Future cost-of-living increases for teachers who retired prior to September 1, 1992, are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum. For teachers who were members of the Teachers' Retirement System before July 1, 2007, and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%. For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

Discount rate - The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the State contributions will be made at the actuarially determined rates in future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Long-term rate of return - The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The current capital market assumptions and the target asset allocation as provided by the State of Connecticut's Treasurer's Office are summarized in the following table.

Asset class	Target allocation	Long-term expected real rate of return
Global equity	37.0%	6.8%
Public credit	2.0%	2.9%
Core fixed income	13.0%	0.4%
Liquidity fund	1.0%	-0.4%
Risk mitigation	5.0%	0.1%
Private equity	15.0%	11.2%
Private credit	10.0%	6.1%
Real estate	10.0%	6.2%
Infrastructure and natural resources	7.0%	7.7%

Sensitivity of the Town's proportionate share of the net pension liabilities to changes in the discount rate - The Town's proportionate share of the net pension liability is \$0 and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued financial statements available at www.ct.gov.

Other information - Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

Note 10 - Other Post Employment Benefits - OPEB

Connecticut Teachers' Retirement System

Plan description - The faculty and professional personnel of the Town's Board of Education participates in the State of Connecticut's Teachers' Retirement System ("TRS"), which is a cost sharing multiple employer defined benefit pension plan that provides retirement, disability, survivorship and health insurance benefits to plan members and their beneficiaries. The TRS is governed by Connecticut General Statute ("CGS") Title 10, Chapter 167a and is administered by the Connecticut State Teachers' Retirement Board (the "Board"). The OPEB trust fund is included in the TRS, and the TRS is included in the State of Connecticut audit as a pension trust fund.

Benefits provided - The Plan covers retired teachers and administrators of public schools in the State who are receiving benefits from the Plan. The Plan provides healthcare insurance benefits to eligible retirees and their spouses. Any member that is currently receiving a retirement or disability benefit through the Plan is eligible to participate in the healthcare portion of the Plan. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the TRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare, but not receiving Subsidized Local School District Coverage.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Any member that is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$220 per month for a retired member plus an additional \$220 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, any remaining portion is used to offset the district's cost. The subsidy amount is set by statute. A subsidy amount of \$440 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost, and contributes at least \$440 per month towards coverage under a local school district plan.

Any member that is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the TRS. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage. If a member participating in Medicare Parts A & B so elects, they may enroll in one of the TRB Sponsored Medicare Supplemental Plans. Active members, retirees, and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits). Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Contributions - Per CGS 10-183z, (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are amended and certified by the TRB and appropriated by the General Assembly. The State pays for one third of plan costs through and annual appropriation in the General Fund. School district employers are not required to make contributions to the Plan. The cost of providing plan benefits is financed on a pay as you go basis as active teachers' pay for one third of the Plan costs through a contribution of 1.25% of their pensionable salaries, and retired teachers pay for one third of the Plan costs through monthly premiums, which helps reduce the cost of health insurance for eligible retired members and dependents. Administrative costs of the Plan are to be paid by the General Assembly per Section 10-183r of the Connecticut General Statutes.

OPEB liabilities, OPEB expense, deferred outflows of resources, and deferred inflows of resources related to OPEB - The Town reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows due to the statutory requirement that the State pay 100%, of the required contributions. The amounts recognized by the Town as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the Town were as follows. The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2023. For the year ended June 30, 2024, the Town recognized \$3,696 of on-behalf contributions made by the state in both the fund and government-wide financial statements as on-behalf revenues and expenditures/expenses. For the year ended June 30, 2024, the Town recognized (\$32,302) for its share of OPEB revenue and expense for on-behalf benefits provided by the state in the government-wide financial statements as on-behalf and benefits revenues and expenses.

Town's proportionate share of the net OPEB liability	\$ -
State's proportionate share of the net OPEB liability associated with the Town	274,200
Total	\$ 274,200

Actuarial assumptions and other inputs - The total OPEB liability was determined by an actuarial valuation as of June 30, 2023 using the following actuarial assumptions, applied to all periods included in the measurement.

Inflation	2.50%	
Real wage growth	0.50%	
Wage inflation	3.00%	
Salary increases	3.00% - 6.50%, including inflation	
Long-term investment rate of return	3.00%, net of OPEB plan investment expense, including inflation	
Municipal bond index rate:		
Measurement date	3.65%	
Prior measurement date	3.54%	
Single equivalent interest rate:		
Measurement date	3.64%, net of OPEB plan investment expense, including price inflation	
Prior measurement date	3.53%, net of OPEB plan investment expense, including price inflation	
Healthcare cost trend rates:		
Medicare	Known increases until 2024, decreasing to an ultimate rate of 4.50% by 2031	

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Mortality rates were based on the PubT-2010 Healthy Retiree Table (adjusted 105% for males and 103% for females as ages 82 and above), projected generationally with MP-2019 for the period after service retirement.

Long-term rate of return - The long-term expected rate of return on Plan assets is reviewed as part of the GASB 75 valuation process. Several factors are considered in the evaluation of the long-term rate of return assumption, including the Plan's current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) for each major asset class. The long-term expected rate of return was determined by weighing the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Expected 10-Year geometric real rate of return	Standard deviation
U.S. Treasuries (cash equivalents)	100.0%	.77%	1.09%
Price inflation		2.50%	
Expected rate of return (rounded nearest 0.25%)		3.25%	

Discount rate - The discount rate used to measure the total OPEB liability was 3.64%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 75. The projection's basis was an actuarial valuation performed as of June 30, 2023. In addition to the actuarial methods and assumptions of the June 30, 2023 actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- Total payroll for the initial projection year consists of the payroll of the active membership present on the valuation date. In subsequent projection years, total payroll was assumed to increase annual at a rate of 3.00%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Annual State contributions were assumed to be equal to the most recent five-year average of state contributions toward the fund.

Based on those assumptions, the Plan's fiduciary net position was projected to be depleted in 2028 and, as a result, the Municipal Bond Index Rate was used in the determination of the single equivalent rate.

Sensitivity of the Town's proportionate share of the net OPEB liability to changes in the discount rate and changes in the healthcare cost trend rates - The Town's proportionate share of the net OPEB liability is \$0 and, therefore, the change in the discount rate and the healthcare cost trend rates would only impact the amount recorded by the State of Connecticut.

Pension plan fiduciary net position and other information - Detailed information about the pension plan's fiduciary net position is available in the separately issued financial statements available at www.ct.gov.

Other information - Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Note 11 - Pension and OPEB On-Behalf Contributions and Revenue and Expense Benefits

In both the fund and government-wide financial statements, the Town has recorded a revenue and expenditure for Connecticut State Teachers' Retirement System pension and OPEB contributions made by the State of Connecticut on-behalf of the Hampton School Department in accordance with 10-183z of the Connecticut General Statutes which reflects public act 79-436 as amended. For the year ended June 30, 2024, the Town recognized \$271,571 of on-behalf pension contributions and \$3,696 of on-behalf OPEB contributions made by the State. These amounts were included as the expected employer contribution effort for allocation purposes in the GASB 68 and GASB 75 reports for the Connecticut Teachers Retirement System prepared as of June 30, 2023. These contributions are recognized as intergovernmental education on-behalf revenues and education expenditures/expenses within the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds and the Statement of Activities. These amounts were not budgeted for in the general fund and result in a difference in reporting on a budgetary basis of accounting versus reporting under GAAP. There is no effect on fund balance at the end of the fiscal year.

In the government-wide financial statements, the Town has recorded employer pension and OPEB revenue and expense for on-behalf amounts for the benefits provided by the State in relation to the Connecticut Teachers Retirement System. For the year ended June 30, 2024, the Town recognized \$280,223 of pension revenue and expense and (\$32,302) of OPEB revenue and expense. These amounts were included as revenue and expense in the GASB 68 and GASB 75 reports for the Connecticut Teachers Retirement System prepared as of June 30, 2023. These amounts are recognized as intergovernmental education on-behalf and benefit revenues and education expenses within the Statement of Activities. There is no effect on net position at the end of the fiscal year.

Note 12 - Other Post Employment Benefits - OPEB

Post-Retirement Healthcare Plan

Plan description - The Board of Education of the Town provides a single employer defined benefit healthcare plan (the "Plan") to its employees upon retirement in the form of the ability to be part of the health insurance plan while paying the full amount of the premium charged for active employees and receiving no physical subsidy from the Town. As a result, the Town does not have an explicit liability for these post-employment benefits because retirees pay the full health insurance premium. However, the Town does have an implicit rate subsidy that recognizes the expected higher health costs attributed to retirees. The provisions of the Plan were established by the Board of Education along with the respective bargaining units of each group in conjunction with all applicable state statutes. The Plan therefore would be amended through the action of these same groups. These benefits will continue for the life of the retiree and the retiree's spouse once they are a part of the Plan. The Plan does not issue a publicly available financial report and is not included in the financial statements of another entity.

Benefits provided - The OPEB Plan provides a benefit for retired teachers and administrators. Non-certified Board employees are eligible to participate in the Plan upon reaching age 55 with at least 5 years of service or upon 25 years of service. Both the retiree and the retiree's spouse are eligible to participate in the Plan and they must pay 100% of the cost for medical coverage. A number of different plan coverages are available. Certified Board employees are eligible to participate in the Plan upon reaching age 50 with at least 25 years of service, age 55 with at least 20 years of service or age 60 with at least 10 years of service. Both the retiree and the retiree's spouse are eligible to participate in the Plan and they must pay 100% of the cost for medical coverage. A number of different plan coverages are available. Surviving spouses are permitted to continue coverage after the death of the retiree, but are responsible for continuing to pay the same monthly premium amount or percentage that was being paid while the retiree was alive. The funding and payment for these postemployment benefits are accounted for within the Board of Education budget within the general fund of the Town on a pay-as-you-go basis.

Employees covered by benefit terms - The following employees were covered by the benefit terms of the Plan as of June 30, 2024, the date of the last actuarial valuation.

	Participant count
Active plan members	11
Inactive plan members or beneficiaries currently receiving benefits	0
Inactive plan members entitled to but not yet receiving benefits	0
	11

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

Total OPEB liability - The Town's total OPEB liability was \$47,254 as of June 30, 2024. The June 30, 2024 actuarial valuation directly calculated the June 30, 2024 liability. The June 30, 2023 liability was increased by service cost and interest and decreased by benefit payments to estimate the total OPEB liability as of June 30, 2024. The liability as of June 30, 2024 was also adjusted to reflect any material plan changes after the valuation, if applicable.

Actuarial assumptions and other inputs - The total OPEB liability as of June 30, 2024 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial valuation date	June 30, 2024 as adjusted for June 30, 2024 reporting
Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll
Amortization period	20 years on an open basis, as a level dollar amount
Asset valuation method	Not applicable as this is an unfunded plan
Actuarial assumptions	
Participation percentage	4.90%
Discount rate	4.25% as of June 30, 2024 which is equal to the published Bond Buyer Go 20-Bond Municipal Index effective as of June 30, 2024
Rate of compensation increase	7.06%
Mortality rates	Pub-2010 Public Retirement Plans Mortality Tables, with mortality improvement projected for 10 years

Changes in the total OPEB liability - The changes in the total OPEB liability of the Plan are made up of the following items as of June 30, 2024:

	Total OPEB liability
Balance as of June 30, 2023	\$ 55,262
Changes for the year:	
Service cost	4,478
Interest	2,467
Effect of economic/demographic gains or losses	-14,030
Changes of benefit terms	-
Changes of assumptions	-923
Benefit payments	-
Net changes	-8,008
Balance as of June 30, 2024	\$ 47,254

Sensitivity of the total OPEB liability to changes in the discount rate - The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.25%) or 1 percentage point higher (5.25%) than the current discount rate:

	1% Decrease (3.25%)	Current discount rate (4.25%)	1% Increase (5.25%)
Total OPEB liability	\$ 55,779	\$ 47,254	\$ 40,437
Change from baseline	\$ 8,526	\$ -	\$ -6,816

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The following table represents the healthcare cost trend rates used in determining the total OPEB liability as of June 30, 2024, applied to all period included in the measurement date, unless otherwise noted. The affordable care act excise tax on high-value health insurance plans will impact the plan. Given the uncertainty regarding the affordable care acts implementation, continued monitoring of the affordable care acts impact on the Plan's liability will be required.

	Medical	Pharmacy	Dental	Vision
Year 1	5.80%	11.70%	3.50%	3.00%
Year 2	5.70%	8.70%	3.50%	3.00%
Year 3	5.60%	5.60%	3.00%	3.00%
Year 4	5.40%	5.40%	3.00%	3.00%
Year 5	5.20%	5.20%	3.00%	3.00%
Year 6	5.00%	5.00%	3.00%	3.00%
Year 7	4.80%	4.80%	3.00%	3.00%
Year 8	4.60%	4.60%	3.00%	3.00%
Year 9	4.40%	4.40%	3.00%	3.00%
Year 10 +	4.10%	4.10%	3.00%	3.00%

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates - The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

	1% Decrease	Current trend rates	1% Increase
Total OPEB liability	\$ 39,843	\$ 47,254	\$ 56,563
Change from baseline	\$ -7,411	\$ -	\$ 9,309

Note 13 - Town Employee Benefit Plans

The employees of the Town are covered under a Savings Incentive Match Plan for Employees Individual Retirement Account, more commonly known as a "SIMPLE IRA" plan. All employees who received at least \$5,000 in compensation during any preceding calendar years (whether or not consecutive) and who are reasonably expected to receive at least \$5,000 in compensation during the calendar year, are eligible to participate in the plan for the calendar year. The Town has chosen to exclude employees who are covered by collective bargaining agreements, if retirement benefits were the subject of good faith bargaining between the Town and the employee representatives. Each calendar year, the Town makes a matching contribution to eligible employees SIMPLE IRA equal to the employees salary reduction contributions up to 3% of the employees compensation for the calendar year. During the current fiscal year, 10 employees were eligible for the plan and received matching contributions by the Town at some point during the fiscal year in the amount of \$10,085. The total payroll for all Town employees for the current fiscal year totaled approximately \$472,470 with the amount attributable to contributing eligible employees under the plan totaling approximately \$336,167.

Note 14 - Risk Management, Commitments and Contingencies

The Town is at risk of loss due to items such as lawsuits, automobile claims, and theft. The Town has purchased commercial insurance coverage for any of these types of loss which may occur. The Town believes the amounts of coverage in force are adequate and in compliance with all applicable laws, rules, and regulations. The Town is a member in the Connecticut Inter-local Risk Management Agency (CIRMA), a public entity risk management program pursuant to the provisions of Section 7-479a of the Connecticut General Statutes for workers compensation pool coverage. The Town pays annual premiums for its coverage. CIRMA is designed to be self-sustaining through member premium's, however it does reinsure for each claim occurrence in excess of \$1,000,000. Members may be subject to supplemental assessments in the event of fund deficiencies, however, these potential supplemental assessments are limited pursuant to its by-laws. The Town has not had any significant reductions in insurance coverage from the prior fiscal year by major category of risk. The amount of settlements have not exceeded insurance coverage during any of the previous three fiscal years. Town management and legal counsel are unaware of any litigation, pending litigation, claims or disputes that would have a direct and material affect on the Town's financial position.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The Town participates in numerous Federal and State grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Town has not complied with the rules and regulations governing the grants, refunds of any monies received as of and through June 30, 2024 may be impaired. In the opinion of the management of the Town, there are no unrecorded significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants, therefore, no provision has been recorded in the accompanying basic financial statements for such possible contingencies. In addition, the Town occasionally books unbilled accounts receivable representing earned or recognized grant or contract dollars which have not yet been billed or received. Any subsequent modification or amendments to these grants or contracts could result in a loss to the Town. However, in the opinion of the management of the Town there are no unrecorded significant contingent liabilities in regard to these unbilled accounts receivable.

The Board of Education has entered into a number of maintenance and service agreements prior to the end of the current fiscal year which extend beyond the end of the current fiscal year. The Board entered into a bus transportation agreement for the purpose of providing transportation services for the school children of the Town of Hampton in compliance with local policies and legal requirements. This agreement initially ran from July 1, 2019 through June 30, 2024, unless extended by mutual agreement. Payment terms are based on specific daily and hourly rates for regular route hours and trips and non-route hours and trips per bus. The per day vehicle prices included in the contract from year one through year five for regular route hours and trips are \$300, \$300, \$300, \$320 and \$325 respectively. The per hour vehicle prices included in the contract from year one through year five for non-route hours and trips are \$60, \$60, \$60, \$62 and \$64 respectively. The Board has indicated that this agreement was extended for a one year period with the regular route daily rate increasing to \$335 and the non-route hours and trips increasing to \$70. The Board entered into an agreement with a contractor to provide a high quality food services program. The agreement runs from July 1, 2023 through June 30, 2028 with annual implementation fees due to the contractor of \$24,000, \$24,250, \$24,500, \$24,750 and \$25,000 respectively. The Board entered into a one year HVAC services agreement through June 30, 2025 at a cost of \$10,971.

The Town has entered into a number of maintenance and service agreements prior to the end of the current fiscal year which extend beyond the end of the current fiscal year. The Towns of Hampton and Scotland currently have a cooperative agreement in place to operate the Hampton/Scotland transfer station in order to dispose of both the recyclable waste and the municipal solid waste of both towns. The transfer station and related operations are funded by the two towns based on a per capita ratio. The per capita ratio for the fiscal year ended June 30, 2024 was 52% for the Town of Hampton and 48% for the Town of Scotland. This per capita ratio is applied to the actual costs of running the transfer station which are accounted for by the Town of Hampton and then billed to the Town of Scotland. In addition, the per capita ratio is applied to the waste disposal costs, the waste and recycling transportation costs and the recycling center lease costs. The Town's currently have a recycling transportation agreement with a contractor which is for a two year period and runs from July 1, 2023 through June 30, 2025. Under the agreement, the recyclable waste generated by the two towns will be transported as directed by the two towns at a cost of \$40 per container for on-site moves, \$155 per trip for transportation of the recyclable waste within a 20 mile radius of the Town of Hampton and \$196 per trip for transportation of the recyclable waste outside of a 20 mile radius of the Town of Hampton. The agreement also contains an escalation clause relating to pricing adjustments in the form of a fuel surcharge in the event that fuel prices exceed \$4.50 per gallon and will relate only to the recapture of excess fuel costs. The current fiscal year charges under this agreement for the Town totaled \$25,134. The town clerks office entered into a five year hosted services contract through May 22, 2025 with monthly payments of \$665 at an annual cost of \$7,980 with additional services included in the contract at specific per unit prices. This agreement is classified as a SBITA and is more fully described in the long-term debt section of the notes to the financial statements. The Town entered into a regional revaluation contract which runs for approximately five years through June 30, 2025. The contract includes ten towns in which the revaluation services for each town are performed at certain points during the period of the contract. The Town's revaluation services are set to begin August 1, 2022 and to run through January 3, 2024. The Town's portion of the revaluation contract is \$30,050 which is being paid in five annual installments of \$6,010. The Town entered into a one year planning and zoning services contract through June 30, 2025 at a cost of \$27,480. The Town entered into a three year tax collection services contract with the Town of Windham, Connecticut through June 30, 2025 at annual costs of \$18,503, \$19,043 and \$19,599 respectively. The Town entered into a one year managed services agreement through January 31, 2025 with a stated monthly recurring amount of \$1,083 at a total annual cost of \$12,996. Subsequent to the end of the current fiscal year, the Town entered into a one year emergency ambulance services contract along with two other municipalities through June 30, 2025 with the costs attributable to the Town being \$90,000. The Town entered into an agreement to purchase a fire truck at a total cost of \$1,088,000 in March of 2024. The prepayment quote relating to this vehicle purchase required a prepayment of \$503,000 with a chassis discount of (\$15,090) and an interest earned discount of (\$72,265) bringing the total amount due upon delivery and acceptance to \$497,645. During the current fiscal year the town paid a total of \$753,000 towards the purchase of this vehicle with \$158,595 coming from the town capital non-recurring fund, \$344,405 coming from the Town ARPA grant funds and \$250,000 coming from a donation made to the town to be put towards the vehicle purchase.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

The Town is contingently liable for its proportionate share of any defaulted debt by entities of which it is a member. The Town is currently a member of the Connecticut Regional School District # 11 and would therefore be contingently liable for any outstanding debt of the District. The Town's portion of this debt would be based on the percentage of the Town's annual assessment to the total annual assessment of the District to the member towns. As of June 30, 2024, the District has reported to the Town that there was no outstanding debt for the District for which the Town would be contingently liable.

The Town has been named as a defendant in litigation relating to an assessment made by the Town on certain personal property that is claimed to be exempt by the plaintiff pursuant to Connecticut General Statutes §12-81 (57)(D). The case was filed September 29, 2021 and was initially regarding the grand list of October 1, 2020. The complaint was amended to include the grand list of October 1, 2021 and October 1, 2022. The tax obligation resulting from the assessment of the property at issue is in the principal amount of \$320,931 for the grand list of October 1, 2020, \$359,584 for the grand list of October 1, 2021, \$325,706 for the grand list of October 1, 2022 and \$248,017 for the grand list of October 1, 2023. These amounts, plus the interest that is accruing, are at risk if the court decides that the property in question is exempt from taxation. The Town intends to contest this case vigorously.

Note 15 - Deficit Fund Balances

In accordance with generally accepted accounting principles, all deficit fund balances and their nature must be disclosed. The following individual non-major special revenue funds currently have deficit fund balances totaling (\$18,932). This deficit total is made up of two individual and ongoing school grants. The first grant deficit of (\$18,929) relates to a school security grant which is designed for the State of Connecticut Department of Emergency Services and Public Protection to reimburse the school 63.93% of eligible project expenditures. The aforementioned deficit represents this percentage of the total final costs of the project. The school does anticipate receiving this State reimbursement during the upcoming fiscal year. The second grant deficit of (\$3) simply relates to an ongoing school grant program for which the amount billed at the end of the fiscal year was slightly lower than the actual deficit. The school does anticipate that this immaterial grant deficit will be reimbursed during the upcoming fiscal year.

Note 16 - Recently Issued Accounting Standards - Adopted

During the current fiscal year the Town adopted GASB Statement No. 100, *Accounting Changes and Error Corrections*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023 which is the Town's fiscal year beginning July 1, 2023. The adoption of GASB Statement No. 100 did not have any material impact on the Town's financial statements.

Note 17 - Recently Issued Accounting Standards - Not yet Effective

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023 which is the Town's fiscal year beginning July 1, 2024. The Town has not yet determined the impact that this statement might have on its financial statements.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024 which is the Town's fiscal year beginning July 1, 2024. The Town has not yet determined the impact that this statement might have on its financial statements.

Town of Hampton, Connecticut
Notes to the Financial Statements
June 30, 2024

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025 which is the Town's fiscal year beginning July 1, 2025. The Town has not yet determined the impact that this statement might have on its financial statements.

In September 2024, the GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. This Statement also requires additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025 which is the Town's fiscal year beginning July 1, 2025. The Town has not yet determined the impact that this statement might have on its financial statements.

Note 18 - Subsequent Events

The Town has evaluated subsequent events through March 26, 2025, the date to which the financial statements were available to be issued. There were no recognized subsequent events that would require adjustments to the financial statements.

The Town of Hampton and the Town of Scotland entered into a joint right to use land lease agreement in relation to the town transfer station location in the amount of \$397,420 on July 2, 2024. The lease agreement is for 10 years with quarterly lease payments in year one of \$9,935. Payments throughout the remaining nine years will be adjusted annually and any increases will be based on the previous years annual inflation rate index plus one point five percent. This lease agreement will be funded by both towns based on a per capita ratio. The per capita ratio for the fiscal year ended June 30, 2024 was 52% for the Town of Hampton and 48% for the Town of Scotland. Each town will be billed separately and will pay their portion of the quarterly costs separately under this lease agreement.

A - This schedule is in effect designed to be shown on the cash basis of accounting whereas it shows the amount being received against tax years as revenues when in effect they represent a reduction in the outstanding asset account for each tax year outstanding. As a result, the total collections balance shown above will not tie out to the property tax revenue balance on Statement D and RSI-1. However, the following is a reconciliation of selected balances from this schedule to the amount shown on Statement D and RSI-1. In addition, the uncollected tax balances shown above may have been netted against credit balance accounts resulting from overpayments not yet refunded when present. A breakdown of these two amounts can be found in the posted rate book when present. The above shown adjustments column reports the current fiscal year transfers to suspense which were approved during the current fiscal year.

\$ 4,306,705	Current year taxes levied from page 58
35,969	Tax interest collections during the current fiscal year from above
7,311	Tax lien fee collections during the current fiscal year from above
5,283	Suspense collections during the current fiscal year
-5,101	Account balances transferred to suspense during the current fiscal year from above
-174,921	The net lawful corrections made during the current fiscal year from page 58
-302,372	The unearned tax revenue adjustment made as described in item number 2 on page 15
<u>\$ 3,872,874</u>	Property tax revenues per Statement D and RSI-1

B - Operation of Law - No tax can be collected 15 years after the original due date.

C - Taxes transferred (to) and from suspense. Though tax balances are transferred from active status to suspense status they remain collectible. During the current fiscal year \$2,704 was collected on principal suspense tax balances owed and \$2,579 of interest and lien fees was collected on principal suspense tax balances owed. In addition, (\$40) worth of lawful correction additions and or deductions were made to a suspense tax year.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Finance
Board of Selectmen
Town of Hampton, Connecticut

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hampton, Connecticut, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Hampton, Connecticut's basic financial statements, and have issued our report thereon dated March 26, 2025

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Hampton, Connecticut's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Hampton, Connecticut's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Hampton, Connecticut's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major State Program;
Report on Internal Control over Compliance; and Report on the Schedule of
Expenditures of State Financial Assistance Required by the State Single Audit Act

Board of Finance
Board of Selectmen
Town of Hampton, Connecticut

Report on Compliance for Each Major State Program

Opinion on Each Major State Program

We have audited the Town of Hampton, Connecticut's compliance with the types of compliance requirements identified as subject to audit in the Office of Policy and Management's Compliance Supplement that could have a direct and material effect on each of the Town of Hampton, Connecticut's major state programs for the year ended June 30, 2024. The Town of Hampton, Connecticut's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town of Hampton, Connecticut complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2024.

Basis for Opinion on Each Major State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of the State Single Audit Act (C.G.S Sections 4-230 to 4-236). Our responsibilities under those standards and the State Single Audit Act are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town of Hampton, Connecticut and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state program. Our audit does not provide a legal determination of the Town of Hampton, Connecticut's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Town of Hampton, Connecticut's state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town of Hampton, Connecticut's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the State Single Audit will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting

from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town of Hampton, Connecticut's compliance with the requirements of each major state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the State Single Audit Act, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town of Hampton, Connecticut's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town of Hampton, Connecticut's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the State Single Audit Act, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hampton, Connecticut's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the State Single Audit Act. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of State Financial Assistance Required by the State Single Audit Act

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hampton, Connecticut, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Hampton, Connecticut's basic financial statements. We have issued our report thereon dated March 26, 2025, which contained unmodified opinions on those financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of state financial assistance is presented for purposes of additional analysis as required by the State Single Audit Act and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

Town of Hampton, Connecticut
Notes to Schedule of Expenditures of State Financial Assistance
For the year ended June 30, 2024

The accompanying schedule of expenditures of state financial assistance includes state grant activity of the Town of Hampton, Connecticut under programs of the State of Connecticut for the fiscal year ended June 30, 2024. Various departments and agencies of the State of Connecticut have provided financial assistance through grants and other authorizations in accordance with the General Statutes of the State of Connecticut. These financial assistance programs fund several programs including but not limited to education, transportation, tax relief, and library programs.

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Town of Hampton, Connecticut conform to accounting principles generally accepted in the United States of America as applicable to governments. The information in the schedule of expenditures of state financial assistance is presented based upon regulations established by the State of Connecticut, Office of Policy and Management.

Basis of Accounting:

There are two sets of basic financial statements contained in the Town of Hampton, Connecticut's annual report as required by GASB Statement No. 34. The government-wide financial statements are prepared on the accrual basis of accounting, and the fund financial statements are prepared on the modified accrual basis of accounting. The following is a summary of such bases:

Accrual Basis - Government-wide financial statements:

- Revenues are recognized when they are earned.
- Expenses are recorded when they are incurred.

Modified Accrual Basis - Fund financial statements:

- Revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty days after year end. Miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received. Intergovernmental revenues, and interest income are accrued, when their receipt occurs soon enough after the end of the accounting period so as to be both measurable and available.
- Expenditures are recorded generally when the related fund liability is incurred. This includes reimbursable expenditures which have been incurred by the Town and therefore included in the accompanying schedule of expenditures of state financial assistance but which have not yet been reimbursed and are considered and recorded as accounts receivable. The determination of when an award is expended should be based on when the activity related to the award occurs. Exceptions to this general rule include principal and interest on general long-term debt which is recorded when due.

The expenditures reported on the Schedule of expenditures of state financial assistance are reported on the modified accrual basis of accounting. In accordance with Section 4-236-22 of the Regulations to the State Single Audit Act, certain grants are not dependent on expenditure activity, and accordingly, are considered to be expended in the fiscal year of receipt. These grant program receipts are reflected in the expenditures column of the schedule of expenditures of state financial assistance.

Note 2 - Awards Passed Through to Subrecipients

There were no awards passed through to sub-recipients by the Town of Hampton, Connecticut for the year ended June 30, 2024.

Town of Hampton, Connecticut
 Schedule of Findings and Questioned Costs
 For the year ended June 30, 2024

• Noncompliance material to the financial statements noted?	<u> </u>	yes <u> X </u>	no

State Financial Assistance:

Type of auditors' report issued on compliance for major programs	<u>Unmodified</u>		
Internal control over major programs:			
• Material weakness (es) identified?	<u> </u>	yes <u> X </u>	no
• Significant deficiency (ies) identified?	<u> </u>	yes <u> X </u>	none reported
• Any audit findings disclosed that are required to be reported in accordance with Section 4-236-24 of the Regulations to the State Single Audit Act?	<u> </u>	yes <u> X </u>	no

Major State Programs and Percentage of Coverage:

- The following schedule reflects the major programs included in the audit. Sec. 4-230 of the Connecticut General Statutes states that a "major state program means any program, excluding an exempt program, determined to be a major state program by the independent auditor pursuant to the requirements of the risk based approach". Under step two of this process all Type A programs must be identified. Based on the Town of Hampton, Connecticut's non-exempt expenditures of state financial assistance amount of \$552,684, a Type A program shall be considered a non-exempt state program for which the amount of state financial assistance expended under the program for the audit period equals or exceeds \$100,000. The Town of Hampton has two Type A programs for the current fiscal year based on the \$100,000 dollar threshold and therefore all of its remaining programs would be considered Type B programs. The Town has three Type B programs for which a risk assessment must be performed considering the Type B programs with expenditures in excess of \$25,000.
- In accordance with Subpart A of the risk assessment procedures, the following considerations would be applied to the Type A programs of the Town to determine whether they should be considered high risk: The dollar value of the applicable transactions, the complexity of the requirements of the program and as compared to other programs of the Town, whether the program has been tested as major during at least one of the two most recent audit periods and an assessment based on professional judgement. The Town's two Type A programs were determined to be high-risk and therefore were audited as major programs. One of the Town's three Type B programs for which a risk assessment was required was determined to be high-risk and therefore was also audited as a major program. The total non-exempt state financial assistance expended by the Town for the current audit period was \$552,684. The programs tested as major and shown below represent approximately 69% of the total non-exempt state financial assistance expended.

<u>State grantor and program</u>	<u>State grant program Core-CT number</u>	<u>Expenditures</u>
Town Aid Road Grants	12001-DOT57131-17036	\$ 185,835
Small Town Economic Assistance Program Grant	12052-DOT57191-40530	160,000
After School Programs	11000-SDE64370-17084	37,353
		<u>\$ 383,188</u>

- Dollar threshold used to distinguish between Type A and Type B programs: \$ 100,000
