Item 4: Old Business:

1. WP0515-02: Paul & Laurie Pribble, Applicants; 653 Pomfret Road. Proposed Activity: repair existing dam on the Little River. Application Review Fee of \$30 received.

John Valente reported that the engineer was present for the site walk and provided a detailed plan, Report for Repairs, Little River Dam CT DEEP #06306, which was distributed to members. The plan calls for the construction of a temporary cofferdam while the water is lowered and the existing stone dam is repaired. The project will not significantly impact wetlands. Mr. Mlyniec questioned the potential impact of stalling the flow of water. Mr. Pribble responded that he spoke with a neighbor who can release water from an upper pond on his property, if necessary. Chairman Crawford stated that CGS 22a-411(a) grants municipal agencies jurisdiction on dams of this size. Mr. Valente reviewed the summary ruling and fees, and the Pribbles submitted checks totaling \$185 to cover expenses.

Motion: Muriel Miller, seconded by Glen Newcombe, to accept the plan as written with the conditions stated. Motion carried unanimously.
