

Protest against new fracked gas pipeline in Wilton

Friday, October 14
4 - 6 pm

Wilton Town Green
101 Old Ridgefield Rd
Wilton

Meet up at the Wilton Town Green at 4 pm for a march and protest in opposition to Eversources's ratepayer subsidized fracked gas pipeline extension in Wilton. Despite mountains of evidence that we must use less fossil fuels to mitigate the impacts of climate change, new pipelines are being built to increase the use of fracked gas. Join us to oppose this gas expansion project in Wilton.
