

# Hampton Elementary School

## Monthly Board of Education Update

### Principal Report

September 21, 2021

- September 8, 2021 I-Ready staff training for math remote options
- Planning for safety drills
- September 15, 2021 AQIS tech support and group meetings for NAEYC accreditation
- September 16, 2021 RSCD regional meeting
- Parent communication ongoing
- Consult with EASTCONN for Professional Development planning

#### Student numbers by age/grade

DATE	July 2021	August 2021	September
PRE-K	9	9	8
Kindergarten	8	8	8
1 <sup>st</sup> Grade	8	8	7
2 <sup>nd</sup> Grade	11	13	13
3 <sup>rd</sup> Grade	10	10	10
4 <sup>th</sup> Grade	10	9	9
5 <sup>th</sup> Grade	7	6	7
6 <sup>th</sup> Grade	10	11	10
Outplaced/STEM	6	6	6
Total	79	80	78

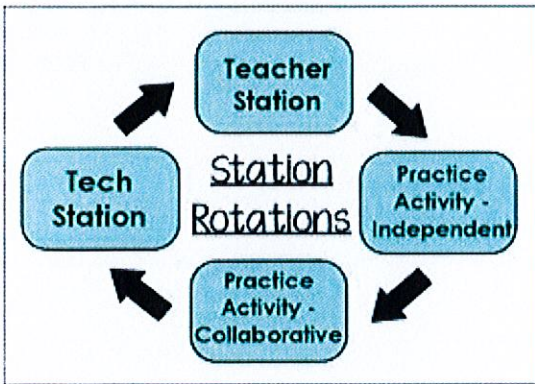

<b>TEAM</b>	<b>AUG</b>	<b>SEPT</b>	<b>OCT</b>	<b>NOV</b>	<b>DEC</b>
PreK	9	9	8		
TEAM K1	16	16	15		
TEAM A	13	13	13		
TEAM B	19	19	19		
TEAM C	17	17	17		
OUTPLACED	6	6	6		

Math Class with Ms. Sanchini and Mr. Lord  
September 17, 2021

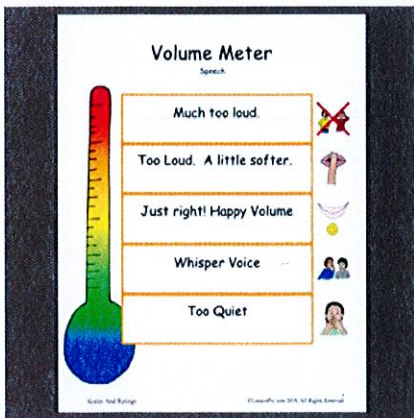

Our math class will...  
look like

- ❖ Daily whole group meeting
- ❖ Daily two stations
- ❖ Stations repeat two times a week
- ❖ Fridays distance learning activities

sounds like...

just right, happy voices and whisper voices

Math sheets will be assigned for homework at least two nights a week. Please check their student planners.

### Operations and Algebraic Thinking:

Students in our class will learn to flexibly work with numbers.

Depending on their needs, they learn how the operations of addition and subtraction or multiplication and division work. Memory work and speed for basic math facts is also part of this time. They will do this by learning to compose and decompose numbers and by solving problems.

Our program includes:

Google Classroom: Math with Ms.

Sanchini

Savvasrealize - EnVision math program as our base.

iReady for our formative assessment- it's used as the predictor of skills needed to be developed

Prodigy for math practice fun

Our centers are

Writing in Math - problem solving and vocabulary

Math Fluency for skill development with speed and accuracy with Mr. Lord

iReady

Guided teaching with Ms. Sanchini

# Week of 9/13/21

# WEEKLY NEWSLETTER

## EVENTS

10/5/21- Bus Drill

10/25/21- Picture Day

Don't forget to bring in water and a snack each day!

## Homework

- Read for 10 minutes each night
- Math homework coming soon!

## CONTACT

If you have any questions, please feel free to contact me at [kschiano@hamptonschool.org](mailto:kschiano@hamptonschool.org)!

## WE ARE LEARNING ABOUT...

Reading- We will be starting our first unit on getting to know characters in books we are reading. We have been learning about what it means to be a good reader.

Math- We are starting our first unit on adding within 20. We will be learning about new strategies such as counting on and using a numberline to help with counting.

Social Studies- We are learning about communities and community helpers.

Writing- We are working on writing small moment, narrative stories. We are brainstorming different moments in our life and putting them on paper.

Math with Ms. Sanchini  
September 2021

Hello,

Your child has been placed with me for math class for the domain: Operations and Algebraic Thinking. Our class meets daily from 11:10 - 12:10 in the Team B classroom for 8 - 10 weeks.

Safety protocols will continue to be maintained in each classroom. This means 3 feet apart, facing forward, masks indoors, upon entry to the room the students will use hand sanitizer as well as I will maintain cleaning of room areas and materials.

Here is information about HES's personalized learning program that I put together to share with you.

Our school is continuing to develop our mission to provide personalized learning opportunities for our students. Math is the area that we are continuing to explore. This means that our students will be combined by similar math objectives and by doing this some students will be moved to other classroom spaces. Mr. Gervase and Mr. Shifrin will also be classroom math teachers. For each of the four math domains, groups will be reviewed and changes for placement may be made.

Here is a bit about our process towards personalized learning. Personalized learning always involves these core four elements - targeted instruction, data-driven decisions, flexible content, and student reflection and ownership.

- ★ Targeted instruction: Teachers will create personalized instruction using our school wide programs, EnVision Math and iReady Math.
- ★ Data driven decisions: To begin to form math classes, the students took part in the iReady math diagnostic. The diagnostic follows the common core standards and from this we chose to begin with the math domain; operations and algebraic thinking. Other considerations from classroom teachers were weighed and classes were formed.
- ★ Flexible Content: This means to provide direct teaching, extra practice, remediation and extension activities that pace students to grow with the math content. In math, we will be organized by the 4 domains and will update the class groupings throughout the year.
- ★ Student Reflection and Ownership: Students make goals and I Can statements.

If you have any questions or have input about our process then please contact Ms. Roberson. For questions or input on our class time, please contact me.

One last thing, this is a new process for us and so communication is really important for success. I post on my class webpage, and have created a math google classroom. I will send email and will send home news and updates in the Home and Back folders or student planners. Another handout is attached with our operations and algebraic math thinking classroom information.

Thank you,  
Linda Sanchini

# Hampton Elementary School Parent Teacher Organization 2021-2022

Welcome to the new school year from the P.T.O. We hope everyone is settling into new schedules, meeting some new faces and ready for a great school year. During a typical year, the P.T.O. organizes many fun and exciting activities and events for the students and staff. Unfortunately, this year will once again look very different as we strive to keep the health and safety of our community in the forefront of all decision making.

The annual Halloween Party in the gym will not take place, but there will be a trunk-or-treating event at Parish Hill Middle/High School that we encourage everyone to attend. This will take place on Thursday, October 28<sup>th</sup> starting at 6:00pm (more info to come).

We will run several fundraisers throughout the school year. The proceeds will go directly towards supporting the students and staff at H.E.S. Last year, we were able to purchase new equipment/games for each team to use at recess. We also had a teacher/staff appreciation day celebration and purchased field day shirts for everyone.

We are pleased to continue the tradition of selling Lyman Orchards® pies & Otis Spunkmeyer® Cookie Dough for Thanksgiving. This fundraiser will run from September 27<sup>th</sup>-October 12<sup>th</sup>. Your child will receive a paper order form in his/her folder. There will be an on-line option to place orders and pay via credit card to help reduce the exchange of paper and money. Pies will be delivered to the school on Friday, November 19<sup>th</sup>.

In conjunction with the pie and cookie dough fundraiser, we will also offer the Simply Shipped Collection. This is new for us this year. It is entirely on-line and items are shipped directly to the buyer's home. It's a great way to reach friends and family who want to support the fundraiser but are not local.

Box Tops for Education is a national school earnings program that provides cash back for each Box Tops product purchased. Each Box Tops product is worth 10¢. Earning cash for our school just got easier and all you need is your smartphone. When you download the NEW and improved Box Tops app you'll be able to scan your receipt, instantly identify Box Tops products and automatically add cash to our school's earnings online.

Spirit wear brought to you by Squad Locker. The online store is open 24/7 and orders are sent directly to your home!

Just a few of the many items available:

<https://teamlocker.squadlocker.com/#/lockers/hampton-elementary-school-0>

It is my hope that we can hold an outdoor Block Party in June to celebrate the end of the school year. As my twelve years as an H.E.S. parent and eight years leading the P.T.O. comes to an end, I think this will be a fitting celebration!

While the opportunity for parent involvement is somewhat limited at this time, please know that we welcome your thoughts and ideas. You can send an email to [pto@hamptonschool.org](mailto:pto@hamptonschool.org)

Thank you for all of your support in the coming year,

Joy Becker
