

TOWN OF HAMPTON

EST. 1786

- ⇒ Hampton is a place where people—no matter where they were born—deserve to live without fear of harassment, targeting, or unjust treatment.

- ⇒ We support state efforts, including Connecticut’s Trust Act, which limit entanglement between local law enforcement and federal immigration authorities, except under clear and lawful conditions.

- ⇒ Our town benefits from the labor, traditions, families, and presence of many—seen and unseen—whose stories are woven into the soil and spirit of this place.

- ⇒ That public safety is best achieved not through raids or fear, but through trust-building, informed community members, and clear rights-based education.

As affirmed by the Hampton Board of Selectmen at their October 6, 2025 meeting.
