GROWN IN THE LAST GREEN VALLEY

A guide to the
Agricultural
Products and
Services in
Hampton, CT

AGVOCATE

ADVOCACY FOR
LOCAL AGRICULTURE

Produced by:
Hampton AGvocate
Committee
In conjunction with the
AGvocate Program

aerial photo from www.glsweetnam.com

Located in northeast Connecticut's Last Green Valley, Hampton is a rural Right-to-Farm community with waving hay fields, a dairy farm, stables, beef, grass fed lamb, free range chickens, fresh fruits and vegetables, tree farms, nurseries, organic farms, and lumber mills. The fresh produce, eggs, maple syrup, honey and jam make every day taste like summer. With its numerous farms stands and Farmers Market, having the freshest food is never a chore.

The AGvocate Program The AGvocate Program began in 2009. Funded through CT Department of Agriculture Farm Viability Grants, it provides a forum for municipal officials, agricultural producers, and other stakeholders to strengthen the farm-friendliness of eastern Connecticut towns. Funding for this brochure was made possible through a grant from The Last Green Valley, Inc. (www.tlgv.org). More information about the AGvocate Program is available at AgInfoTLGV.org/AGvocate, or by contacting Jennifer Kaufman at 860-450-6007, AGvocate@yahoo.com.

For comprehensive resources about promoting local agriculture in northeastern CT go to AgInfoTLGV.org.

You hold the key to the future of our agriculture by buying food, fiber and forest products from local farms, businesses, farmers markets and farm stands; and by supporting town or state policies that keep farms and forests viable.
